State-wide changes in student discipline were announced last fall by Chancellor Glenn Dumke, and are now being implemented at the CSBS campus.

The principal change will be the appointment of impartial attorneys as hearing officers to replace campus judicial boards.

Under the new procedures, a member of the Student Services Staff will be designated as coordinator for student discipline. He will be responsible for investigating allegations of misconduct and will attempt to resolve these problems informally without invoking formal disciplinary action, said Dr. Kenton L. Monroe, dean of students.

Dr. Thoren Pane, housing director, is the acting coordinator for this campus, the dean announced.

Based on the results of this investigation, the coordinator will submit a report to President John M. Pfau which will include recommendations on the need for further hearing and recommendations on possible disciplinary actions.

The student involved can elect to accept the disciplinary recommendations of the coordinator, waive a hearing, or he may request a hearing on his case.

The three alternatives for hearing are:

1. Informal office hearing by an administrator of the college, appointed by the president. Generally these are used for minor offenses.

2. Formal hearing by a hearing officer, who will be an attorney under contract to the college. In general, these would involve more serious cases.

3. Hearing by a residence hall committee in the case of charge of conduct violations in residence facilities on campus.

The completion of construction on the new library this winter will alleviate the problem of insufficient classroom space for the time being. However, during this quarter conference rooms, storage rooms and cafeteria space are being used for additional classroom and faculty office space.

The current cafeteria and bookstore facilities are inadequate for the size of this campus and will be even worse next year," stated Dean Monroe. The building of a new cafeteria has been funded, with the completion set for September of 1972. Plans are now being made to set up various satellite vending machine operations throughout the campus to accommodate students. At least two new areas will be constructed identical to the existing area in the Biological Sciences building.

An arrangement is also being worked out with the local bus company to plan some new routes more suitable for the students on campus. Presently, many students travel for long periods of time before they reach campus.

Many offices are presently overcrowded, with work load due to the increased enrollment. According to Dean Monroe, there is no relief in sight for the Health Department. The present facilities must provide space for all of the health records of students and also there must be additional space for health examination. It will be after 1975 before any additional space can be added.

The Placement and Financial Aid Department is currently in the process of finding part-time employment and giving placement assistance to many students and also offering job opportunities to the community of students that are still working and overcrowded in the cafeteria and bookroom are also not being handled into the "dormitory pigpen" situation.

The upswing in student life this year has also had its effect on students, faculty and staff. According to officials of the student conduct and the Administration Office, questionnaires returned to participants last week.

The greatest problems affecting the campus and will even be worse next year," stated Dean Monroe. The student body has been funded, with the completion set for September of 1972. Plans are now being made to set up various satellite vending machine operations throughout the campus to accommodate students. from here on the fiscal problems which the State is facing. The problem of every public agency in terms of fiscal support with ever-broadening demands and needs, and increasing population, and in-qualified students who apply to the State Colleges. If we are forced to make a cumulative G.P.A. of 2.5, and a 3.0 in the major, be required, efficiency Examination and the Comprehensive Examination — both of which necessitates a speed-up in the present building program. The application is neither substantiated nor warranted. As for solving the problems of students,
PROFESSEURS, GET THE POINT

By Nancy Standers

The "Unicorn Horn" is a student-written and produced evaluation of the faculty and the college. It was on sale this year prior to final registration, as a hopeful guide to apply for intern pictures and industry training programs for those who so desire to assist in the development of worthwhile programs through financial assistance when requested.

Gossett, as Chairman of the Council, is determined to utilize campus activities by his show of concern for the wants and needs of the students. But he cannot accomplish this alone. He desperately needs the cooperation of the club members and other interested students who feel that campus unity is very important at this time.

The IOC is a separate entity to the A.S. Government whose purpose is to charter clubs, to provide communication between the clubs and student government, to coordinate club activities, handle common problems among the clubs and aid the clubs in the development of worthwhile programs through financial assistance when requested.

Chairman, Maxie Gossett, as Chairman of the IOC (I.O.C.) met on October 1. This meeting was called to order by the previous Chairman, Maxie Gossett. The IOC is a separate entity to the A.S. Government whose purpose is to charter clubs, to provide communication between the clubs and student government, to coordinate club activities, handle common problems among the clubs and aid the clubs in the development of worthwhile programs through financial assistance when requested.

State colleges add 20,000, enrollment climbs

An estimated 244,000 students—enough to fill all seats in The California State Colleges, and 2.76
admissions applications for the parts in American universities.

That process," Schrade said, "is to have their capacity enrollment.

Six of the colleges closed their a record 18,700, or added 58,000 undergraduate admissions applications by Jan-
uary 30. Eleven more had done so by the end of June. All 18 
campuses were closed in both under-graduate and graduate cate-
gories by August 1.

Chancellor Dume has announced his determination of a systematic Common Admissions Program that will allow students to apply for graduate and professional schools throughout the state.

This year, the number of applications received during the November period was reduced.

All applications received during the November period will be handled at the central office.

The Board policy lists cate-
gories by August 1.

Under the new program, pro-

90% of the 1971 students were accepted for admission to the college by the end of June. All 18 
campuses were closed in both under-graduate and graduate cate-
gories by August 1.
