ENROLLMENT STAYS FIRM
CSCSB did not experience the normal drop-off in registration totals after the Fall Term.

The student population dropped only 43 for the Winter Term. The new total of students is 1,282, a full-time equivalent of 1,120.

HEALTH CENTER SPONSORS PROGRAM ON "LIFE OR DEATH"
All CSCSB faculty, staff and students are invited to attend a program on a life-or-death subject at 10:30 a.m. Tuesday, January 14, in PS-122.

The use and vital need for an artificial kidney machine in the San Bernardino area will be discussed by representatives of the Kidney Foundation. A 20-minute film will be shown.

A CSCSB student, Daniel Muro, who has been permitted the use of a kidney machine twice a week in Los Angeles, will also participate in the program. Mr. Muro owes his life to the kidney machine. He was chosen by a panel of doctors to be among those who receive the machine treatment because he is a young man with a family working toward a teaching career. There are, however, a large number of people in the area who need the use of the machines.

"I feel a responsibility to help the public understand this program," Muro said, "because I was one of the lucky ones who got to use the machines."

The CSCSB Health Center is sponsoring the program. Dr. Samuel M. Plaut, M.D., Director of the Health Center, will also participate in the program.

Federal funds which make available grants and loans to state, city and county law enforcement officers in the amount of $10,700, will soon be received by the College for use in 1969.

According to Doyle J. Stansel, Director of Placement and Financial Aid, the funds will be available under a new federal bill which is intended to encourage officers to attend college.

A police science program will not be established. Officers will work toward the degrees already offered by the College. Eighty percent of the funds are earmarked for individuals already in law enforcement work, with the remaining to be available for persons preparing for a career in that field.

Professor Leslie Van Marter will serve as chairman of the panel, which will include Professor Ward McAfee and Professor Robert Stein. All College personnel are invited to attend.

A program to recruit volunteers to serve as tutors is underway on campus. Richard Bennecke, Activities Advisor, is serving as coordinator of the program to determine those persons who are already tutoring and have them register with his office, and securing new tutors to aid in the program. ASB is co-sponsor and the tutoring is to aid underprivileged children in the San Bernardino area, which requires only a few hours a week.
