BACH CONCERT
TO FEATURE
MUSIC STUDENTS

A Bach concert will be presented this Sunday afternoon featuring three CSCSB music majors.

As the result of their studies in the performance practices of baroque music, MaryLou Ham, David Johnson and Dennis Dockstader will perform in the concert. The students, who have edited and prepared the music from original sources, will be assisted by six musicians from San Bernardino and nearby communities.

The concert will be given in the PS Lecture Hall at 3 p.m. and is open to the public, as well as the College community, without charge. The date is Sunday, April 20.

Dr. Charles Price assisted the students in preparing the music and the program, which consists of the Flute Sonata, Cantata 82 for the Feast of the Purification of the Blessed Virgin Mary, the Wedding Cantata and selections from the Sleepers Wake Cantata.***

BIO SCI BUILDING The Biological Science Building, previously named one of 15 outstanding examples of college building design by College & University Business Magazine, has again been singled out for recognition in the April edition of American School & University Magazine. The shape of the windows, with their "concrete fins and horizontal porcelain-enameled 'eyebrows,'" received favorable comment. The textured finish of the building was noted as a "technique that gives the exterior a more informal appearance, preventing the structure from dominating future buildings."

The article is accompanied by two large photographs of the building.
