The Committee on Faculty and Staff Affairs of the California State College Board of Trustees has been authorized to establish and approve salary adjustments of all state college employees, according to information received early this week by the Personnel office.

The adjustments are expected to reflect the 5% raise included in the 1969-70 State Budget for most state employees and a 6% increase for other classifications.

It is hoped that the information on the rate adjustments will be received in time to be reflected in the pay checks to be issued July 30.
