CSCSB RECEIVES 1970-71 BUDGET

The final 1970-71 budget for the California State College, San Bernardino has now been received. The original Governor's budget for this college was reduced by approximately 1.4% in legislative conference. This proved to be the smallest percentage cut of any college in the system.

In addition to this reduction in the operating budget all faculty members and several members of the administrative staff were denied a proposed 5% cost-of-living salary increase. The Business office is in the process of notifying those individual administrators who failed to receive the increase.

No sabbatical or creative leaves for faculty were cut out of the budget.

Under the new rates, full-time students will pay $3 more per quarter for Material and Service fee. Students with six or less units will save money in the Winter Quarter as compared to the Fall Quarter, but will pay considerably more than they did in the last year.
