Friday Bulletin
$2,192,724 BID RECEIVED FOR FIRST RESIDENCE HALLS

An apparent low bid of $2,192,724 was received last Tuesday from Viking Co. of Laguna-Niguel for construction of the College's first residential housing.

If state revenue bonds can be sold as scheduled, a contract may be awarded October 24. The Viking Company's bid was the lowest of five received. Next highest was from Berry Construction Co. of Ontario at $2,227,433.

The College has received assurance from the Chancellor's office that the housing project should proceed on schedule even though bids for two other state college projects, which were opened on the same day and are in the same funding package, came in considerably higher than estimated.

In view of rapidly increasing construction costs, the low bid is approximately $50,000 under the state's original cost estimate for the project, according to Executive Dean Joseph Thomas.

Bids for the first residences at the new Bakersfield campus were 27 per cent above estimates and a housing project at Humboldt State exceeded estimates by 37 per cent.

"We are very pleased with the five competitive bids we re-

ROBERT GENTRY MOVES TO U.C., IRVINE POST

Robert F. Gentry, Assistant to the Dean of Students, has resigned his position to accept an assignment at U.C., Irvine. Mr. Gentry will take over the duties of Associate Dean of Students at Irvine on August 17.

Coming to CSCSB in August two years ago as Assistant to the Dean of Students, Mr. Gentry was later assigned the additional duties of resource person in helping students to cope with their campus and personal life.

Mr. Gentry will be living in Laguna Beach.
BIDS RECEIVED -(Cont'd) "ceived," said Dr. Thomas. "The Chancellor's office has assured us it will proceed with our project, because of the good bidding, regardless of the situation at the other campuses."

The present schedule calls for the state revenue bonds to be sold October 8 and the contract awarded October 24, assuming the low bid is cleared. Construction is slated to begin in November.

Funds for the College's first permanent cafeteria building also are included in the same bond issue. If the State Public Works Board approves the financing schedule at its August 31 meeting, bids will be advertised shortly thereafter for the dining facility. It is hoped it will be ready for use at the same time the residence halls open, in the fall of 1972.

CSCSB PROFESSORS Professors Harvey Wichman (psychology), David Squire (sociology) and Clifford Paynton (sociology) recently received word from Ben Poorbaugh of the Community Relations Division of the San Bernardino Police Department that the P.L.E.A.S.E. (Parolees and Law Enforcement Assist Students Education) Project has been funded in its entirety by the California Council of Criminal Justice.

The CSCSB professors assisted Mr. Poorbaugh, originator of the program, in drafting the evaluation portion of the grant proposal.

The $84,856-a-year grant is intended to serve a two-fold purpose: (1) utilize the experiences of the narcotics parolee by having him relate the disadvantages of narcotics and drug use to teenagers and guide the youngsters away from narcotic and drug use; (2) aid in rehabilitation of narcotic parolees by providing useful employment and placing them in a position to improve their own behavior and become socially accepted.

Since Mr. Squire will not return to CSCSB next fall, the work of evaluating the project's effectiveness and serving as members of the advisory board will be carried out by Drs. Wichman and Paynton. They will coordinate their activities with the San Bernardino Police Department and other law enforcement agencies as well as the local school district.

The grant is set up for a three-year period with $5,000 a year budgeted for research, evaluation and analysis.
