CHEMISTRY DEPT. RECEIVES A.C.S. ACCREDITATION

CSCSB's Chemistry Department has been accredited by the American Chemical Society. President John M. Pfau was notified that the College will be listed among the prestigious society's list of approved schools by J. H. Howard, secretary of the Committee on Professional Training.

Accreditation of a chemistry department by the A.C.S. is of inestimable significance to the graduates who go on to advanced training or into professions, according to James Crum, Chairman of the CSCSB Chemistry Department.

Approval by the A.C.S. indicates the College has met the society's standards for quality and number of faculty, appropriateness of curriculum and adequacy of laboratories and equipment.

Chemistry majors who have fulfilled certain requirements will also be eligible for membership in the society after graduation and two years' experience in the field of chemistry. Dr. Crum will be able to certify majors beginning in June.
