COLLEGE RECEIVES TWO GRANTS TOTALING $16,420

President John M. Pfau has received confirmation from the California Coordinating Council for Higher Education that a grant in the amount of $12,500 has been recommended for award to the College.

The grant application, submitted by Robert Senour, Director of Audio Visual Services, is earmarked for purchase of two items of electronic equipment. One, an electronic synthesizer capable of simulating sounds produced by all musical instruments, will be used by the Music Department. The other, a Cary Spectrophotometer, is for use in bio-chemistry classes.

Final approval of the grant is expected to be received from the U.S. Commissioner of Education some time in June.

A $3,920 grant for the CSCSB Educational Opportunity Program from International Business Machines Corp. has been announced by Chancellor Glenn S. Dumke. CSCSB was one of 10 state colleges which qualified for the grant because of expected increases in minority and low income EOP students requiring special help.

$2,000 from the IBM grant will provide summer orientation programs for EOP students and an additional $1,920 will be given to CSCSB during the regular academic year beginning in September to continue the employment of tutors for students in the program.

CATALOG 1971-1972

Copies of CSCSB's 1971-72 College Catalog are now on campus and available at the Bookstore for $1.05, including tax.

Edna Steinman, Public Affairs Officer, was responsible for compiling, editing and photography in the catalog, which was published by the State Printer. The cover, designed by Helen Breunig of Orange Tree Studio in Redlands, symbolizes the alphabet and the numbers as the base or foundation for the preservation and transmittal of knowledge.

Additional copies are available to College faculty and staff upon request at the Public Affairs and College Relations offices.
