Today is the last day on campus for the 22 high school students participating in CSCSB's Youth-On-Campus Program.

The students have planned an hour-and-a-half entertainment for the College beginning at 1 p.m., during which they will present a video-taped documentary which they filmed and produced, recording their class, work and recreational activities during the six-week program. A talent and fashion show is also scheduled.

The College community is invited to attend the presentation in PS-10.

Funding of the summer program is provided by Neighborhood Youth Corps, coordinated by Operation Second Chance and staff members of San Bernardino County and City Schools.

PAYCHECKS MAY VARY THIS MONTH

The August pay warrants which will be distributed today after 3 p.m. may reflect some changes which became effective July 1.

Changes in the Public Employees Retirement Law which established a new uniform retirement rate of seven percent for all employees under PERS, may increase or decrease net salaries for employees, depending upon former retirement rates.

Employees who have been with the College over six months and who are enrolled in a basic health plan will benefit from the $2 increase in the State's contribution, which is now $12 per month.

STUDENT SERVICES BLDG.

Post-Session registration will be conducted Monday, August 2, in the Student Services Building in the area formerly occupied by the Library (left of the main lobby), from 8:30 a.m. to 5 p.m., according to John Morey, Registrar.

The Registrar requests that grades for the Six-week Summer Session be turned in no later than 9 a.m. Tuesday, August 3.
PEOPLE IN THE NEWS
Mary Barnes (wife of Ronald Barnes, Drama) is currently starring in the Riverside Community Players production of "The Reluctant Debutante."

Frederick Damaske (Political Science) has an article, "Cohesion, Communication and Social Action," in the May, 1971, issue of Colloquium.

Dr. Damaske also chaired a panel at the National Science Foundation Institute on Mass Political Communication on "Teaching Methods in Mass Communication" where he also presented a paper on "The 'Other Face' of Mass Political Communication."

Ronald Taylor (Biology) is teaching a course on Pathology and Disease in Marine Animals at the Santa Catalina Marine Biology Laboratory of the University of Southern California this summer. Dr. Taylor's co-teacher is Dr. Albert Smith of the University of Hawaii.

George Weiny (Physical Education) recently received recognition for nine years of volunteer work with the American National Red Cross at the Annual Recognition Tea for Red Cross Volunteers.

Mr. Weiny was also awarded the Charles B. Scully Certificate of Appreciation for "twenty years of devoted service to the saving of lives through the teaching of swimming, life saving and first aid."

Office of the Chancellor
NEWS RELEASE

The resources of an entire campus -- Cal State Bakersfield -- have been made available for trying new concepts of higher education proposed by Chancellor Glenn S. Dumke.

The initial component of the program to implement far-reaching proposals advanced by the Chancellor in January will be an opportunity for all incoming freshmen to be evaluated for credit by examination. Under the program, the college's approximately 200 freshmen will take a battery of five examinations which test their knowledge of subjects required for graduation, prior to beginning Fall quarter classes September 20.

Freshmen who achieve satisfactory scores on any of the exams will receive 10 units of academic credit. In the event any students' scores are satisfactory on all five exams, they would be redesignated as sophomores.

The credit-by-examination concept is one of various approaches presented by Chancellor Dumke to the college system's trustees early this year to meet the State Colleges' changing responsibilities for immediate and future years.
THE DESPERATE HOURS

The Cafeteria will observe the following hours beginning next week, Monday, August 2:

9 a.m. to 1 p.m.

POWER SOGO SAILS OWN BOAT TO HILO

Power B. Sogo, Prof. of Physics at CSCSB for four years, sailed for Hilo, Hawaii on his 38-foot sailboat earlier this month.

Dr. Sogo, who also served as CSCSB's Physics Dept. Coordinator and has accepted a teaching position with the University of Hawaii at Hilo, was accompanied on the trip by his wife, Marilyn, and friends.

Word was received recently by the Natural Sciences Division from Dr. Sogo that the sailing party had "arrived in Hilo after 17 days of sailing. Fair winds and seas all the way. Cloudy skies kept sights to a minimum, but navigation via sun was 'right on'."

Dr. Sogo served as navigator aboard his trimaran vessel during the voyage.
