CONSTRUCTION EXPECTED TO START ON CREATIVE ARTS BLDG. IN AUGUST

Construction is expected to start around the latter part of August on the Creative Arts Building.

In the second round of bidding, Nick Pokrajac, Inc. of Baldwin Park, again submitted the low figure, with a bid of $2,597,094 at the June 10 bid opening. His previous bid was $89,000 over available funds, making re-bidding necessary.

In the interim between the April and June bid openings, plans for the building were reviewed and about $250,000 of equipment and materials were deleted from the specifications, primarily in lighting equipment and some adjustments in design.

An augmentation of about $55,000 is needed to fund the construction under the new bid. The amount represents the difference between the originally budgeted figure and a cost inflation index prepared by Engineering News Record Index. The Public Works Board will be asked to approve the augmentation.

Joseph K. Thomas, Vice President for Administration states that work should start on the project the latter part of August of this year. Occupancy is now slated for the winter quarter of 1977, one quarter later than the originally planned September 1976 opening.
