Health Center

by Denise R. Allen

Have you stopped by the Student Health Center lately? What!? You didn't know that CSCSB had a Health Center? Well, greetings.

The Student Health Center is located in the new square building across from the Commons in the S.E. section of the campus. It is open from 8:00 to 5:00 Monday through Thursday and from 8:00 to 4:00 on Friday. The center offers a variety of free services all intended to maintain student health and wellbeing.

The Center functions as an outpatient clinic. This means the staff can and will treat most acute illnesses and injuries. The list of services includes: emergency care, gynecological care, venereal disease treatment and testing, T.B. skin tests, vision and hearing screening, allergy injections, minor surgery, laboratory services, and family planning (birth control, abortion counseling, etc.).

The clinic cannot set broken bones, deliver babies, perform abortions, or provide any long-term (overnight) hospitalization. These services, and any other cases that are outside the clinic's treatment realm will be referred out. For this reason, the clinic staff recommends that all students carry some sort of health insurance plan. A voluntary insurance plan, through an independent carrier, is available. Insurance brochures can be obtained at the Health Center.

The Clinic is staffed by two physicians, Dr. Ross Ballard (medical director) and Dr. James Savage; a nurse practitioner, Vivian McEachern; a registered nurse, Lois Ljunggren; a pharmacist and three clerical persons. If you have any questions or would like to set-up an appointment to see a doctor, stop in or call 887-7641 during working hours. If you have an emergency you can walk in and someone will see you as quickly as possible. You must present your validated student I.D. card in order to be treated, so do not forget to bring it!

CSCSB Children's Center

by Sandra Frey

At the west edge of campus is a small world almost hidden from view, the CSCSB Children's Center. The concerns of its two to six year-old inhabitants are the same as serious as class deadlines and bills are to us. The children plunge into each day in an atmosphere that fosters learning through play, self-discovery, and relationships with others.

A typical day includes instruction at various levels. The younger set receives help in motor skills. Sounds of our language are illustrated through the Letter of the Week. Last week was "S" Week. Emphasis was placed on the "Sky" and the "Spaghetti" served for lunch. Nature's wonders are witnessed on a shelf by the window, where plants grow and caterpillars turn into butterflies. Instruction is given in spelling, language, and math is given the older children.

All teaching is done in an open setting. Classrooms are created as needed with movable partitions. At the Children's Center, organization is balanced with freedom, and discipline with imagination. Arts and crafts, music, physical exercise, and occasional field trips are the creative play projects that offset study times.

This balance is part of a new image that director Pam Dortch has worked for since she took the post last April. Her experience surely has helped her meet this challenge. Ms. Dortch has broadened the Center's horizons by including parents and the campus community in activities. She believes professionals can learn from the Children's Center and that it can be enhanced by using campus resources, and she keeps an open door. Parents are required to devote at least one hour a week to volunteering, and they receive gold stars if they do so.

If the CSCSB Children's Center sounds good to you and you are a student or staff parent, call 887-7724. But plan ahead - there's a long wait!

Draft Registration Doesn't Work

Draft registration isn't working, according to some of the non-registrants undergoing or awaiting prosecution. "I don't think the system...can't possibly prosecute us all," said Benjamin H. Sasway of Vista, Calif. Sasway was the first indicted for non-registration, and the second to be prosecuted.

"The trials are just a desperate move to intimidate people into turning themselves in and compromising their moral and religious beliefs," said Russell Martin, another draft registrant, who was registered against his will by a U.S. attorney in Iowa. "A few people are being prosecuted by a goon that refuses to admit defeat."

The General Accounting Office's latest figure shows over 700,000 non-registrants. This is more than 20 times the entire population of Federal prisons. The overall compliance rate with registration is 93 percent, according to Selective Service. This is well below the 98 percent Selective Service officials have said must be reached for the system to be considered fair and effective. Even at the height of the Vietnam war, compliance with registration never fell below 98 percent.

The current prosecutions will raise the issue of illegal selective prosecution, said Martin. "I'm going to be prosecuted not because I didn't register for the draft, but because I publicly pointed out its fallacy, with the program and the aggressive foreign policy behind it," he said. Martin was reelected this spring as student body president of the University of Northern Iowa, in Cedar Falls.

"Draft registration is a legal device designed to force people into supporting policies that they would not support otherwise. It has nothing to do with national security," said Martin. "It registration forces a debate on foreign policy."

Other non-registrants agree. "If the non-registration is an act of conscience. "Draft registration is preparation for war," said Russell F. Ford, who was impaneled before his trial when he refused bail. "I am not willing to sign my life over to the Government that brought us the Vietnam, Watergate and the Trident submarine. I am not willing to withhold my protest...until the nuclear arms race has reached its logical conclusion in a nuclear holocaust...I am defending a view that wars, like poverty and prison, are neither necessary nor inevitable. They transgress the human spirit and ought to be abolished," he said. In late August, an amendment sponsored by Sen. Hayakawawa (R-CA) and Rep. Solomon (R-NY), to the Defense Authorization Bill had passed both houses of Congress and was before President Reagan. The bill would require male college students applying for grants and loans through the Government to prove that they have registered for the draft.

CSSA Opposes

At the October CSSA meeting, to be held at CSU, Northridge this weekend (Oct. 15-17), Resolution 82/83-7 will be voted on. This resolution supports the CSSA’s continuing opposition to peacetime registration.

Briefly stated, Resolution 82/83-7 states, "that the CSSA reaffirms its commitment of opposition to the draft and registration for the draft and affirms its support of an adequately paid all-volunteer armed force, thereby promoting the efficiency and dignity of our armed services and allowing every American to determine his own life in accordance with his own values."

Persons wishing to voice their opinions for or against Resolution 82/83-7 are invited to attend the meeting. Remember, the CSSA is your voice in state government!

Support for Proposition 12

The Nuclear Weapons Freeze will appear on the November 2nd California ballot as Proposition 12. The proposition would require the Governor to send the following message to the President, the Secretaries of State and Defense, and members of Congress: "...the people of the State of California...do hereby urge that the government of the United States propose to the Soviet Union that both countries agree to immediately halt the production and further development of all nuclear weapons, missiles, and delivery systems in a way that can be checked and verified by both sides."

California is one of 11 states due to consider the Freeze in some form during this election season. Wisconsin, the first state to vote on the proposal, endorsed it by a 3-1 margin. In the course of the last year, nation-wide polls have indicated that 72 percent of respondents support the principle of a halt to the arms race. California is one of the states due to consider the Freeze in broad outline. Pollster LA. Lewis has estimated that the Freeze is endorsed by a bare 52 percent of those “most likely to vote.” Though the Lewis estimate is of questionable accuracy, it does reflect the fact that students, the firmest supporters of the proposal, form a community not traditionally considered likely to turn out for elections. Thus, while Proposition 12 could win an election without a heavy student turnout, the margin of victory would probably be quite narrow. In sum, a marked increase in the student turnout on Novem

Budget Cuts Hurt Students

by Earl J. McGrath
Former U.S. Commissioner of Education

If the proposed cuts in the federal budget in scholarships and loan funds for college and university students are enacted into law, the youth of America will be severely hurt. Many in the lower income families will be prevented from attending any institution of higher education. Even among middle class families, especially those with several children, the financial burden will be too heavy to bear. The contention that the states and private philanthropy will provide the funds to replace federal aid is totally misleading. No matter how generous private agencies and contributors may be, their resources are inadequate to offset the reductions in federal aid. It is deceptive, therefore, to assure youth that either alternative source will make up the losses.

A reversal of presently planned reductions in aid will not occur unless students themselves become politically active in the current academic year. In contemplating such action, students should be aware that the executive branch of the government can neither make nor deny the needed appropriations. The legislative branch has this responsibility, and a large percentage of legislators at both the national and state levels must stand for election in the fall of 1982. No time is to be lost if students wish to be politically effective in restoring proposed cuts in aid.

In contemplating action, they should keep several facts of political life in the forefront of their thinking. Of the over 12,000,000 students in institutions of higher education, almost all are of voting age. If, therefore, they form a united front in presenting the case for continued federal aid, they can constitute the balance of power in voting districts to assure the election of a majority of representatives who favor their cause, both at the federal and state levels. The recent reinstatement of some aid programs does not reduce the need for continued expressions of interest in all related legislation.

A depressing feature of the 1980 elections was the failure of many 18 to 21 year old citizens to vote. To assure that this will not happen, students will have to learn how candidates in their districts stand and then vote accordingly.
Placement Center Registration

Students who have obtained senior status and have not registered with the Career Planning and Placement Center are encouraged to do so as soon as possible. No charge is assessed for registering, and the process itself is not time consuming. The Placement Center is located in the Student Services Building, Room 116. Please schedule an appointment to register with Mrs. Becky Westbrook, secretary, or by phone (887-7551).

A variety of services are available to students and Alumni through the Placement Center. The vast majority of services are available to all students, regardless of major or class level. Several of the major services include: job announcement postings (located on our Career Employment Opportunities Board just outside the Placement Center), assistance in resume writing, and advice on job interview techniques, career counseling and vocational testing, placement file service, and School Grade Reference service. In addition, two vacancy newsletters—Job News (listing vacancies in Business, Industry, Government, Higher Education and Counseling), and the Employment Newsletter (listing vacancies in the teaching profession) are available. Two separate telephone tapes are also available to place candidates—right contacts in Business, Industry, Government representatives, and one for educational placement representatives.

The Placement Center also makes arrangements for employers to visit our campus to conduct job interviews. Interview times are available only to students who are registered with the Placement Center and have a final resume on file. Please sign up for an interview time in SS 116 at least two days in advance of the scheduled campus visit. All students may visit with those recruiters not requiring individual appointments. Changes in the calendar will be posted as soon as new additions are confirmed. The recruiting calendar for the Fall Quarter is as follows:

Housing Offices Initiate Alcohol Education

The Association of College and University Housing Offices (ACUHOI) is initiating the first Annual Alcohol Education Week, October 10 through 16, 1982.

The focus of this week cannot and should not address itself to the issue of whether or not to drink. Rather, the goal and direction of a college level program should be to encourage and support responsible drinking behavior. This concept of responsible drinking is non-judgmental and non-moralistic.

Responsible drinking entails a decision-making process which is characterized by an understanding of the reasons and motivations of drinking and the conscious decision making process to be able to take into account the needs of the individual and other members of society as well. The following guidelines for safety are suggested:

- Choosing to avoid performing complex tasks, such as driving a car while under the influence of alcohol, and discouraging him or her from driving.
- Avoiding riding with a driver who is under the influence of alcohol, and encouraging him or her from driving.
- Recognizing that one's behavior and attitudes affect others.
- Providing transportation or overnight accommodations for those unable to drive safely, recognizing that the host is just as responsible for preventing drunken driving as his or her guest.

Support your drinking buddy more than a buddy, would you know what to do? As students you enjoy partying with your friends, and often that means drinking together. Let's say it's 2 a.m., and you've been drinking with your friend Allen. But he's had a few too many and now you have a drunk on your hands. Would you know how to handle him? The following are do's and don't for the immediate care of a drunk person.

IF ALLEN'S CONSCIOUS:

Stay calm. Don't communicate your anxiety to him. Keep your distance. Before approaching or touching him, explain what you intend to do. Use a calm, reassuring manner. Don't ridicule, provoke, or threaten him. Keep him still and comfortable. DON'T LET HIM DRIVE!!

If he vomits, stay with him to prevent suffocation. Remember only one time will sober a drunk so don't walk him around, don't give him a cold shower, don't feed him food, drink, or medication (including coffee, aspirin or vitamins).

IF ALLEN'S UNCONSCIOUS:

Check his breathing and pulse. If there's any sign of danger get medical help quickly. Be prepared to give artificial respiration. Don't let him sleep on his back. The safest position is on his side. Place pillows or rolled up blankets behind his back, or prop him up against a wall.

Continue to check his breathing and pulse for at least two hours until you're sure he's out of danger. If you have any doubts about his safety, call the Campus Police: 887-7555.

Many college campuses today are offering alcohol awareness programs, which promotes responsible drinking through student-run task forces. One of the most visible and successful programs today is offered under the auspices of a national, non-profit organization called BACCHUS.

BACCHUS is an acronym for 'Boost Alcohol Consciousness Concerning the Health of University Students'. BACCHUS takes a common sense approach. The program encourages moderation in the use of alcohol among students who drink and respect for the choice of students who don't.

BACCHUS's chapters are organized by students, with the aid of a faculty administrator who acts as advisor. The chapters are semi-autonomous, planning their own policies.

The key ingredient to this type of project is student participation. When the project's message comes from students; any misperception of its purpose is broken down more quickly.

There are many student alcohol awareness task forces such as BACCHUS in the United States and Canada. If there is any student, faculty or staff interest on this campus to establish an Alcohol Awareness Task Force please contact Sherri Deutchman, Assistant Director of Housing in the Housing Office: 887-7405.

Alcohol Awareness Quiz

(Answers on page 7)
Exchange Students Arrive

Beginning Oct. 4, students from several countries started to arrive at Cal State, San Bernardino to study English. During their 20 week stay, they will be taking intense courses in reading, writing, and speaking the English language.

The students will be living in Serrano Village in Tokyo, Waterman, and Badger houses.

Bill Becker was named the International Student assistant, a position established especially for this program. Becker will be helping the students adjust to dorm life and act as a liaison between other residents and their new visitors.

These students come from Jordan, Korea, Malaysia, and Saudi Arabia. They are here to study our culture and language, but it is also a chance for us to learn about their ways of life. If you happen to run into one of these students on campus, please take time to talk to them. You’ll be helping them as well as yourself.

Village Council

The first Village Council meeting was held Wednesday, Oct. 6 to elect new officers. The meeting was very productive, with a large attendance and positive attitudes. We hope this continues throughout the year.

The elected officers are:

President-Terry Ayers; Co-Vice President Jackie Leed; Tina Hornbeck; Treasurer-Al Katemopoulos; Secretary-Keller Luppenthalten.

Study Group Seminar

The Learning Center and Housing Office are offering a presentation for dorm students on Wednesday, October 13, in Badger Dormitory concerning "How to Set-Up Student Study Groups" and information on support services. Many students in the past have used the study group technique to prepare themselves for specific courses. This has proven to be very successful when used correctly. If you are interested, please come to the demonstration.

If you have any questions, call Sherrie Deutchman (887-7739) or Diana Pelletier (887-7712).

A.P.C. in Action

Phil Buford and Judy Brasch, the Village Activity Program Coordinators, are working hard to plan events for everyone's enjoyment. Here are just a few of the things they are working on:

- Halloween Dinner and Carnival
- R.A. pizza night
- Thanksgiving dinner
- Dorm video: Central City movies; Dorm Feud; and a brand new project called The Village Entertainer which will showcase village talent in a coffee house atmosphere.

They also plan to continue with educational programming such as the Student Service Expo, Rape Prevention, Alcohol Awareness plus much more. Check the dorm exit and entrance doors for upcoming events.

Yearbook begins

Those students who remember last year's Cal State year book will be pleased to know that plans for an 82-83 yearbook are already underway. It is our hope to make this years' annual better on all counts with new innovative features such as repeating favorite features from the 81-82 book such as: Village wills, dorm horses or jockey on to victory.

The deadline for sign-ups is Oct. 22 at the Student Union desk. The price is only $75.00 per person, which includes admission and transportation. A chartered bus will depart on Sunday, Oct. 24 at 10:45 a.m.

The Housing Office and all of Serrano Village wish to extend a very special "thank you" to the Associated Students Activities coordinator, Sharon Saka. She has done her best, in a job that can be at times a thankless one. She has created enjoyable activities for all segments of our college community.

The Body Electric

A movement class offered for all Serrano Village residents last year for a fee has been repeated under the counsel of a faculty member or a recognized campus professional. The Body Electric incorporates jazz dancing exercise, body awareness and stress reducing techniques. This is the first part of a continuing program designed to increase mind and body fitness.

Later this month, The Body Electric series will hold evening workshops on diet and nutrition and ways in which to improve one's appearance from hair cutting/styling, conditioning, and make-up.

Come join us in our celebration of mind and body!

Philip Morris Inc. Offers Competition

Philip Morris Incorporated has announced its Fourteenth Annual Marketing/Communications Competition for Students. The competition provides an opportunity for students, nationwide, to sharpen their marketing and communications skills.

A first place award of $2,000, a second place award of $1,000, and a third place award of $500 will be presented to the winning teams in both the graduate and undergraduate categories. Students are invited to develop marketing/communications projects related to Philip Morris Incorporated or any of its non-tobacco products and operations. A committee of marketing/communications experts will judge selected entries.

The competition is divided into graduate and undergraduate categories, and is open to students currently enrolled in any accredited college or university. Undergraduates must work in groups of three or more, and graduate students in groups of two or more, both under the counsel of a faculty member or a recognized campus professional. The deadline is January 14, 1983.

For additional information, please contact the Competition Coordinator, Philip Morris Incorporated, 120 Park Avenue, New York, New York, 10017, (212) 679-1800.

Cover Your Assets

by Quentin Moses

The Department of Public Safety (Campus Police) welcomes all new and returning students, staff, and faculty. We are here to assist you and make your experience at Cal State, San Bernardino as pleasant as possible.

The College Department of Public Safety is staffed by State Peace Officers, Investigators, Parking Officers, Public Safety Dispatchers, and Community Service Aides. As a team, personnel from all classifications provide all range of protective and service functions to the college community. The Department is operational 24 hours a day, 7 days a week.

Since the new academic year began, the campus has experienced a high rate of vehicle hit-and-runs as well as book thefts.

California Vehicle Code Section 20002a requires the driver of any vehicle involved in an accident to report it to the proper authorities. They also require that the driver give his/her name, address, and vehicle license number.

Tom Hauser's Missing

During the early 1970's, the United States pursued a three-year, multimillion dollar policy of undermining and destroying the existing regime in the South American nation of Chile. These efforts climaxed in the September 1973 right-wing military coup that toppled the Marxist rule of Salvador Allende Gossens, the world's first democratically elected Marxist president.

Missing is the real-life story of Charles Horman, a young American free-lance writer and resident of Santiago, Chile, who was caught up in the events of 1973. Six days after the takeover, Horman disappeared from his home in the Chilean capital, later to be found murdered. Author Thomas Hauser traces the search for Charles Horman by his father and wife and their frustrated attempts to discover the truth surrounding his disappearance and death. Not only did the United States play a key role in the coup itself, alleges Hauser, but also did nothing to locate the missing American citizen, or help his relatives in their desperate search for information. Most serious is Hauser's contention that the United States may have actually been responsible for the assassination of Charles Horman in order to cover up its involvement in the overthrow of Allende Gossens.

The release of the film version of Missing provoked an official statement from the U.S. State Department, a highly irregular action. The State Department objected to the film's allegation that the United States had any advanced notice of or complicity in the execution of Horman, as well as the overt impression left by the film that the U.S. played a large role in the Chilean coup of 1973. Hauser points out, however, that the statement avoids any reference to a central claim of both book and film—that the U.S. willfully withheld information concerning Charles Horman's death from his family.

Thomas Hauser is a lawyer-turned author who had met Charles Horman and his wife two years prior to the Chilean incident at their home in Berkeley, California.
Alcohol Awareness Quiz Answers

1. Alcohol increases sex drive. FALSE
   Alcohol can increase sexually aggressive behavior, because it
   releases inhibition and restraint. Alcohol acts to interfere with
   coitus.

2. The effects of alcohol vary with the time of day. TRUE
   Susceptibility to alcohol is higher in the morning and early
   afternoon than in the evening because of the difference in the
   level of liver enzymes that breakdown alcohol, and because there
   usually is less food in the stomach for absorption.

3. Alcoholic beverages do not provide weight increasing
   calories. FALSE
   Alcohol is a food because it contains calories.
   Alcohol is higher than sugars and starches, although lower than fats. The calories in alcohol can contribute to
   weight gain.

4. Alcohol is not a drug. FALSE
   This is one of the most common myths about alcohol. Alcohol
   is a special type of drug: it affects the nervous system after it
   reaches the brain.

5. A blood alcohol concentration of .1% is the legal definition
   of alcohol intoxication in California in regards to driving. TRUE
   This is true in most states, including California.

6. Approximately 10% of fatal highway accidents are alcohol
   related. FALSE
   The current estimate is that over half of all fatal highway
   accidents are alcohol related, and a much higher percent of non-
   fatal accidents are related to alcohol use.

7. Eating while drinking will have no effect on slowing down
   the absorption of alcohol in the body. FALSE
   Some alcohol is absorbed in the stomach, but most is in the
   small intestine. The degree of absorption thus depends on the
   time it takes the stomach to empty into the small intestine. Thus
   the food in the stomach tends to slow down the absorption and
   affects of alcohol on the body.

8. A person cannot become an alcoholic by just drinking
   beer. FALSE
   The type of alcohol consumed makes no difference in
   becoming an alcoholic.

9. It takes about as many hours as the number of beers drunk to
   completely burn up the alcohol ingested. TRUE
   The body burns up alcohol through the process of oxidation—a
   series of chemical changes that enables food to release energy.
   Oxidation takes place mostly in the liver, which needs about 1
   hour to burn up one half an ounce of alcohol. Meanwhile, the
   unoxidized alcohol remains in the blood stream and continues to
   have an effect on the brain.

10. Most alcoholics are middle aged or older. FALSE
    A University of California research team has found that the
    highest proportion of drinking problems is among men in their
    early twenties. The second highest incidence occurs among men
    in their forties and fifties.

11. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

12. A 150-pound person to keep the blood alcohol concentration
    below the legally intoxicated level, would have to drink less than 3 beers in one hour. TRUE
    The body can only oxidize alcohol at a fixed rate, three
    12-oz. beers (or 3-4 oz. glasses or 3-1 oz. shots of liquor) would
    raise the 150 pound person's blood alcohol content above 1.1
    the legally intoxicated level.

13. A responsible drinker can result in reduced blood
    alcohol concentrations. TRUE
    Responsible drinking does not result in reduced blood
    alcohol concentrations. A responsible drinker will space drinks over a
    longer period of time, and drink and eat at the same time, to slow down
    the absorption and carry-over alcohol.

14. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

15. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

16. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

17. The most commonly drunk alcoholic beverages in the
    U.S. are distilled liquors (whiskey, gin, vodka). FALSE
    The most commonly drunk alcoholic beverages in the U.S. are
    beer and wine.

18. Beer is by far the most commonly drunk alcohol in the U.S.
    FALSE
    Wine is by far the most commonly drunk alcohol in the U.S.

19. To prevent getting a hangover one should sip one's drink
    slowly, drink and eat at the same time, space drinks over a
    period of time, and drink slower than your limit. TRUE
    This is the best formula to prevent a hangover besides non-
    alcohol beverage.

20. Moderate consumption of alcoholic beverages is generally
    non-harmful to the body. TRUE
    Few harmful side effects are found to the moderate use of
    alcoholic beverages, relative to each individual.

21. Alcohol is a depressant, not a stimulant. FALSE
    Alcohol is generally a depressant, not a stimulant but
    sometimes a drinker imagines that he/she is being pepped up.
    This is why: alcohol's first effect on the brain is to slow down the
    brain's activity area that controls muscular coordination. Thus, alcohol may also
    interfere with a person's normal ability to do certain physical
    tasks.

22. Alcohol is usually classified as a stimulant. FALSE
    Alcohol is generally a depressant, not a stimulant but
    sometimes a drinker imagines that he/she is being pepped up.
    This is why: alcohol's first effect on the brain is to slow down the
    brain's activity area that controls muscular coordination. Thus, alcohol may also
    interfere with a person's normal ability to do certain physical
    tasks.

23. Moderate consumption of alcoholic beverages is generally
    non-harmful to the body. TRUE
    Few harmful side effects are found to the moderate use of
    alcoholic beverages, relative to each individual.

24. Alcohol is usually classified as a stimulant. FALSE
    Alcohol is generally a depressant, not a stimulant but
    sometimes a drinker imagines that he/she is being pepped up.
    This is why: alcohol's first effect on the brain is to slow down the
    brain's activity area that controls muscular coordination. Thus, alcohol may also
    interfere with a person's normal ability to do certain physical
    tasks.

While under court test currently, even if a person has not driven
in any problem way, if requested to take a blood alcohol test and
the person fails, he or she can be convicted of drunken driving.

16. Few women become alcoholics. TRUE
   In the 1980's there were 5 or 6 alcoholic men to every woman.
   Now the ratio is about 3 to 1.

17. Liquor taken slowly will affect you faster than liquor
    mixed with water. TRUE
    Straight liquor reaches the brain faster because it is absorbed
    into the blood stream faster than liquor which is diluted. But when
    liquor is diluted, what you use as a mixer has an influence on
    absorption of alcohol. Alcohol in liquor diluted with water is
    absorbed most slowly; the alcohol in liquor diluted with soda is
    absorbed somewhat faster; and the alcohol in straight liquor is
    absorbed fastest of all.

18. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

19. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

20. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

21. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

22. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

23. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

24. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

25. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.

26. Drinking milk before drinking an alcoholic beverage will
    slow down the absorption of alcohol into the body because it
    coats the stomach. FALSE
    Drinking milk will slow down the absorption of alcohol—but not
    by coating the stomach. Almost any non-carbonated milk, or
    any food, will act to dilute alcohol and will slow down the
    absorption of the alcohol.
THE LEADER IN SPORTS

PANCHO VILLA
Restaurant & Cantina

PRESENTS THE
1982 World Series

Hot Dogs * Pizza 25¢
Popcorn 10¢
Ice Cold Draft Beer 75¢

Games #1, #2, and #3 — Oct. 12, 13, & 15 at 5:00 p.m.
Game #4, Oct. 16 at 9:30 a.m., Game #5 Oct. 17 at 1:00 p.m.

PLAY BALL!

666 N. Kendall Drive, San Bernardino
