Chancellor Reynolds Visits Cal State San Bernardino

by Anthony Manning

While Queen Elizabeth was visiting Los Angeles, Cal State San Bernardino was visited by a "queen" of sorts this past Monday. Dr. W. Ann Reynolds, Chancellor of the California State University system, toured our campus officially for the first time. She previously visited in November, 1982, for a California State Student Association conference.

Reynolds had an extremely tight schedule, meeting with faculty, staff, and students all day. Fortunately, the grey skies did not dampen her spirits as she enthusiastically reviewed buildings and chatted informally with members of the college and surrounding communities.

Dr. Reynolds held an open forum with students in the Student Union lounge from 2:00 to 3:00 p.m. The warmth given off by the fireplace made the Chancellor and the students more comfortable and helped to relax tensions. The informality of the forum and the Chancellor's candid attitude was well received by the students.

After an introduction by Associated Students president Elise Traynum, Chancellor Reynolds gave a brief opening address. Many students were wearing "No Tuition" buttons, provided by the A.S., and the Chancellor was quite pleased to see them.

"I am very happy to see many of you wearing "No Tuition' buttons. The issue of fee increases in the CSU is of paramount concern to me. On the day of Governor (George) Deukmejian's inauguration, we were hit with a 2% 'de-allocation' of funds, something which deeply disturbed me. Next year, students might as well registration to Sacrament because fees are continually increased. The increase in fees will dramatically cutback giving an interesting, intriguing, and viable intercollegiate athletic program here on campus. 'I feel that an interesting, intriguing, and viable intercollegiate athletic program is necessary for students. There are different ways of going about it the right way (with a special task force).'

When asked if she would support the Chancellor's efforts to initiate an intercollegiate athletic program here on campus, and Dr. Evans (CSCSB President Dr. Anthony Evans) is going about it the right way (with a special task force).

"Lastly, I'd just like to say that student input is desired and welcome at all times. Be sure you are involved in important campus decisions, not just the little ones. Get out into the mainstream. You are our future resource!"

On Monday, February 28, Dr. W. Ann Reynolds, Chancellor of the CSU system, visited Cal State San Bernardino. She held an open forum with students in the lounge of the Student Union from 2:00 to 3:00 p.m. at which many students voiced their concerns over future fee increases. Dr. Reynolds is shown with AS Vice-President Greg Scott and AS President Elise Traynum. photo by Tom Thornaley

Speed Bumps Installed

Last week, speed bumps were installed in the main parking lot of Cal State San Bernardino. The bumps were originally constructed too high, and so they had to be rebuilt.

"As laid down originally, the speed bumps would have been more of a hazard than a safety feature," said James Urata, Director of Plant Operations. The approximate cost for the bumps was $2000.
Learning Traveler Series Offers Tips

Both books, published by the Institute of International Education, list everything you'll need to know about enrolling in a foreign program. When, where, and how long the programs are; pre-session orientation, course descriptions including prerequisites, credits, teaching methods, language of instruction, housing, costs; scholarships; work-study, and program evaluation.

Each volume costs $9.95. To order a copy of either Vacation Study Abroad or U.S. College-Sponsored Programs Abroad: Academic Year send a check for $9.95 (includes first-class postage & handling) to Communications Division, Box LTS, Institute of International Education, 809 United Nations Plaza, New York, NY 10017.

Summer Study in Far East

A tour to the Far East, with special travel/study options, has been scheduled by California State University in Chico for the summer of 1983.

The tour will go to Hong Kong, with day-trips into Red China, Singapore, Bangkok, Taipei, and Madras in India.

The price of $1,779 includes roundtrip airfare on Singapore Airlines from San Francisco or Los Angeles, accommodations at quality hotels, American breakfasts daily, taxes, services, airport transfers, half-day tours in each city, and daily assistance and lectures from the tour directors.

Tour directors are Dr. Tom S. Reck, Professor of English at California State University and Coordinator of Film Studies there; and David B. Reck, professor of Music at Amherst College, Amherst, Massachusetts, authority in Asian music, and an accomplished performer on Indian musical instruments.

A single supplement is available at an additional fee. Late returns are possible at no extra basic airfare cost for those wishing to extend their travel time to visit Japan, Bali, Burma, the Philippines, or Hawaii.

University-level credits are available through a course entitled "Images of The East in Modern Fiction," which will use the novels of such writers as Graham Greene, John LeCarre, Joseph Conrad, and James Clavell as a basis for immersion into the atmosphere of The East.

Although sponsored by California State University, the tour is open to anyone and will be composed of students, educators, and simply individuals interested in the economic and cultural advantages of a tour sponsored by a non-profit educational facility.

For additional information, contact International Programs, California State University, Chico, CA, 95929; or Dr. Tom S. Reck, English Department, California State University, Chico, CA, 95929. Telephone: 916-895-5801 or 916-348-0239.
Collective Bargaining works for the CSU

Chancellor W. Ann Reynolds has issued the following statement on the outcome of the vote counting process by the Public Employees Relations Board to determine the exclusive bargaining agent for faculty of The California State University:

"The Legislature in passing the collective bargaining law for higher education provided the process for the California State University faculty and other employees to vote on the question of representation by an exclusive bargaining agent. The election results for the faculty were delayed for over a year because of disputed ballots.

"On February 17, 1983 the Public Employees Relations Board conducted a final vote count which determined the Congress of Faculty Associations as the exclusive bargaining agent for the faculty.

Certification by PERB of the exclusive bargaining agent will be in ten days unless objections to the election are filed. The determination of the faculty bargaining agent will end the ambiguous situation that has existed for the last year.

"It is well known that the CSU is now facing severe funding inadequacies which could affect students and faculty. Despite these budget problems, I am hopeful that, within the collective bargaining process, positive employee-employer relationships will continue. The CSU intends to bargain in good faith with its employees.

"Most importantly, the CSU and its faculty must work together to preserve excellence in higher education for California students and to secure adequate funding for this purpose."

CFA is new C.B. rep.

The Congress of Faculty Associations (CFA) has been elected collective bargaining agent for some 18,000 faculty members in the California State University. The decision came after state election officials opened 49 ballots today which had been challenged by CFA's rival, the United Professors of California (UPC). CFA won the hotly-contested runoff election with 6,580 votes to UPC's 6,541 votes.

The winning union's president, Professor William Crist of CSC Stanislaus, immediately congratulated UPC leaders for a hard-fought campaign and urged them to support the new bargaining agent.

U.P.C. Loses Election

The United Professors of California (UPC) has lost one of the closest faculty representational elections in the history of higher education collective bargaining: The Congress of Faculty Associations (CFA) eked out a narrow 39 vote victory as the result of counting 49 previously challenged ballots, which took place today.

UPC, affiliated with AFT-AFL-CIO, and CFA, affiliated with NEA/CSEA/AAUP, had been engaged in merger talks since the original, inconclusive vote count in May of last year. However, these talks had recently broken down when CFA rejected a merger where each organization would be equally represented and where members would have individual choice as to which of the two organizations' state and national affiliates to belong to.

UPC President Stewart Long, commenting after today's vote count, expressed the hope that a UPC-CFA merger can still be worked out. "The CFA vote margin of only 39 votes out of over 13,000 cast is not an overwhelming faculty mandate," Long said. He noted that UPC, with nearly twice the membership of CFA and already the exclusive representative for over 1,400 CSU academic support professionals, would continue to work on behalf of CSU faculty. "If an equitable UPC-CFA merger cannot be worked out," Long added, "CFA's narrow organizational victory will actually be a defeat for faculty as a whole in its quest for a strong, united bargaining agent."

A.S. Elections Upcoming

by Terry Swindell A.S. BOD School of Administration & Bill Freije A.S. BOD, School of Natural Sciences

As the Associated Students annual elections for next year's officers approaches, it appears that there will be several candidates for each of the coveted offices: President, Vice-President & Treasurer. There is unusually high interest in the offices compared to last year's elections when the three current officers ran unopposed!

Even with this increase in interest in the positions, there is still a sense of indifference on the part of the general student population with respect to the function of the Associated Students on campus. This is truly unfortunate in that it is A.S. who sponsors a diverse range of events designed for the enrichment of your education.

This year alone, A.S. has sponsored cultural-ethnic events, dances, and a multitude of other functions. Some recent events include Winterfest and Black History Week. And the A.S. sponsors CSCSB's intramural program!

The most pressing issue that the
S.A.I.L. Awarded Grant

The U.S. Department of Education has awarded the Student Assistance in Learning (SAIL) program $125,636 for fiscal 1983-84, enabling the program to continue to provide assistance to disadvantaged students. SAIL operates under a four-year Special Services for Disadvantaged Students grant, with this term ending August 1984. However, each year the college must apply for a continuation of funding.

Support for 1983-84, which is the same as the amount granted for 1982-83, is lower than anticipated, according to Jean Peacock, program coordinator. In addition, the budget for 1983-84 represented a four-percent drop from the previous year. When the four-year grant ends in August 1984, the college will have received $508,978. Ms. Peacock expects to apply for another commitment from the Department of Education to extend the program for four more years.

Targeted toward low-income, physically handicapped and/or first-generation college students, SAIL is designed to help them succeed in college. Students receive assistance in study skills, reading, writing and basic arithmetic through tutoring, learning labs, and special workshops and seminars. SAIL staff members also provide personal and academic counseling and refer students to services on and off campus when additional help is needed.

Winter Workshop Offered

During the Fall Quarter, the School of Humanities and the Career Planning and Placement Center initiated a new series of quarterly workshops designed specifically to discuss job opportunities for majors in the School of Humanities. The Fall Quarter workshop was held on November 17, and involved a speaker from the Internal Revenue Service. Arrangements have been finalized for the Winter Quarter workshop. The session will take place on Wednesday, March 9, from 3 to 4 p.m. in the Humanities Meeting Room (PL 241).

Mr. Joe Moore representing the Connecticut General Life Insurance Company, will be the presenter. Mr. Moore's presentation will include, but not be limited to, career opportunities for Humanities majors with Connecticut General, the insurance industry in general, and the value of a Humanities degree in a business setting. Mr. Moore will also reflect on his own career progression as a Humanities (Music) major. All School of Humanities students and faculty are encouraged to attend.

Take The Outward Bound Challenge

Over 8,000 men and women, both adults and students, will take part in a unique program called "Outward Bound" this year. While many come to Outward Bound seeking a taste of high adventure - and they'll probably get it - most will leave with a new understanding of themselves after discovering they are capable of doing things they might previously have thought impossible. Outward Bound believes many limits are unnecessary. Academic credit is often available, as is financial aid. In addition, several Outward Bound schools offer no-interest tuition loan plans, some up to three years.

Outward Bound courses are offered year-round and last from 5 to 26 days. For information, write Outward Bound, Inc., 384 Field Point Rd., Greenwich, CT 06830, or call toll free 800-243-8520.

How Not To Get Hired

by Stephanie Anderson

In this world there are two groups of people. The most recognizable is the working class. These are the ones who wake up, get dressed, rush to their cars, and yell on the freeways everyday, much as a red-eyed laboratory mouse runs a maze. Then there is the second group of people. These are the fat, lazy hamsters who never leave their cages, the nonworker I am considered an expert. How do you do it? How do you keep from getting hired? These are the questions I am continuously asked. You see, all hamsters and aspiring workers know that one must apply in order to collect unemployment. So, in reply to this constant inquiry I have designed a three part plan which is fool proof. Follow it and you too, can become a brown, soft, fuzzy hamster.

The first step takes some preparation. You should begin about two weeks before the interview. This step requires that you not have any personal hygiene. In this process you may alienate a few friends but just continue to think of the eventual rewards. To begin you must not wash your hair. When your hair stands unassisted, has lost all its luster, and the color reminds you of the red clay found only in the desert, perfection! Next you must not wash your body. You might hurry this process along by playing five sets of tennis in 101 degree heat. When you can remind others of crunchy red onions simply by lifting your arms you are ready. One last note, be sure and have plenty of chocolate, black and dirt forming a moon shadow under your fingernails.

Step two involves dressing for success. My favorite advice is, dress a trend. As an example, I will instruct you on how to dress "new wave." First, go to that new boutique with the mirrors, lights, and loud rock music. (The one you would not want to be caught in case of an accident.) Find an inappropriately short skirt, preferably one that was designed for someone half your age, and several sizes too small. Next wear a short, valentine-red leotard. This will show all prospective employers your curves and all those detours donated by dozens of Baby Ruths, Snickers, and Hershey's. Be sure to wear light beige nylons and do not shave your legs. The prickly stubs sticking through the nylon will resemble a cactus.

Then, spray a large section of your hair, possibly the part that is standing, a beautiful, bashful blue to match the polka-dots in your skirt. In choosing the correct shoes, be outlandish, be brave, wear those four inch, ankle strapped, gold shoes you bought five years ago to wear to a party and have left in your closet ever since. In case one shoe would not complete without the little accessories which spell your personality, wear your fake gold lame belt which buckles in the back. Do not forget your lucky drop dice earrings which are only five-sided. Remember to wear those plastic beads which match the blue in your hair. And of course, do not forget your purple purse made of imitation parachute material which makes a swishing noise as it rubs against your leg.

Up to this point things are not going as planned and the employer actually looks interested, bring step three into action. Talk Valley Talk. This is to be used only in the most desperate situations and has never failed. Show your smog-filled, sun-dried, trend-coaxed cultural background. You were from the wasteland of Southern California, show it! Drop phrases like, "Gag me with a spoon." "Hurt me, hurt me like, give me a leather teddy." "Do not forget the ever popular, 'Oh my Gawd!'" Be sure to ask the interviewer, "Like, didn't we meet before at Video World in the Galleria?" If up to this point things are not going as planned and the employer actually looks interested, bring step three into action. Talk Valley Talk. This is to be used only in the most desperate situations and has never failed. Show your smog-filled, sun-dried, trend-coaxed cultural background. You were from the wasteland of Southern California, show it! Drop phrases like, "Gag me with a spoon." "Hurt me, hurt me like, give me a leather teddy." "Do not forget the ever popular, 'Oh my Gawd!'" Be sure to ask the interviewer, "Like, didn't we meet before at Video World in the Galleria?"

Now you have them, my devices for not getting hired. Follow these directions and you can become just like me: a three-hundred pound, soap opera, Harlem romance, and Sugar Babies junkie. All the red-eyed rats are probably thinking I'm wasting my life. Well, it's not a living and someone has to do it. Remember there are two types of people in this world. I simply prefer being a cloistered hamster. Which would you prefer?
Parents Weekend and CSCSB Open House April 22-24

The Serrano Village Council sent a letter home to your parents or guardians this past week. Enclosed was an invitation to Serrano Village's second annual Parents' Weekend, to be held April 22-24. That weekend is also CSCSB's Open House and the Inland Empire's first major computer workshop and technology exhibit (ME Festival).

Your parents are invited to stay with you in your room or in a hotel or motel near the campus. We enclosed a list of lodging in our letter.

Presently we are planning a full weekend which includes a special breakfast, outdoor theme dinner, softball game, campus tour, bake-off contest, The Parent and Son or Daughter Game (similar to The Newlywed Game) and a campus-wide Casino Night.

Also in the letter was a final munchie care package reminder for Winter Quarter's finals week, a favorite recipe request that could possibly be used in the Commons, and information about the ME Festival.

If you would like to participate in the planning of Parent's Weekend, please see Sherri in the Housing Office.

Congratulations! These are the 25 semi-finalists for the CSCSB calendar of 1984: Beajean, John-Pierre; Bednarek, Pete; Bernard, Bernie; Bullington, Robin; Caver, Ervin; Charin, Randy; Dietrich, Marc; Dittimore, Joe; Evans, Brad; Forrester, Kevin; Fosdick, Bruce; Groves, Phil; Haste, Remus; Hooper, Chris; Horvitt, Eric; McKell, Shawn; Nicholson, Tim; Nottingham, Greg; Reid, Tom; Ricks, Jeff; Romani, Dan; Rose, Mike; Staley, Paul; Tyrrel, Steve; Wilterson, Paul.

There will be a mandatory meeting Friday, March 4, at 11:30 in the Student Union. Come with an ideas on what you plan to wear for the show.

We want to thank everyone who participated. The decision was tough. Anyone who is interested in helping out, we'd love to hear your ideas. You may pick up your photos at the front desk in the Student Union. Once again, thank you.

Did you know....? Inviting a friend to visit the Village is one way to tell your friends about the good times and good living in Serrano Village.

Congratulations! The Living/Learning Series continues in the Village. Special thanks to Dr. David Lutz for presenting a workshop on Depression and the College Student on Feb. 22, Martha Kazlo and Patti Termini for presenting two workshops on Living Assertively and Relaxation Techniques on Feb. 23 and March 1, and Dr. Lance Masters for presenting the workshop on Listening Skills on Sunday, Feb. 27.

On Tuesday, March 8, Ed Schneederhan from Career Planning and Placement is presenting a workshop entitled Do You Know Where the Jobs are in the 1980's? This workshop will focus on how to prepare for the changes in future careers. Did you realize that eighty percent of the jobs available by the year 2000 do not exist today? The workshop will be at 7:00 p.m. in Badger's Kitchen.

Thank You!

by Chris Bruckner

I would like to thank Mary Kehew, Colleen Robinson, Sharon Saks, the Student Union staff, and Associated Students for their help and cooperation with the event on Thursday, Feb. 24. The event was a success and I look forward to working with all of you in the future.

Thanks again!
**Casino Night Set**

Waterman House and the Village are sponsoring a campus-wide Casino Night to be held at Sat., April 23, in conjunction with Parents’ Weekend. Waterman has planned a full night of events with "gambling," entertainment, dancing, food and drink. The evening meets all campus, local, and state laws. It is purely for fun with no illegal gambling involved.

The residents of Waterman and the Village Council would like to invite you to join in on the fun. We need dealers and entertainment for the evening. Prior to the event, there will be a workshop on how to deal, so you don’t have to be an experienced dealer!

If you have any talent in the areas of music, dancing, skits, or comedy acts, don’t be bashful. We need you! If you have any talent in the areas of music, dancing, skits, or comedy Casino Night has the potential to be highly successful and will be an excellent chance for students, faculty, and staff to interact. Everyone is welcome to join in the fun!

Our first general planning meeting was Tuesday, March 1, in Waterman’s living room. The second meeting will be announced soon.

**Hi School Students Visited**

On Thursday, February 24, high school students from Banning High visited the campus and stayed overnight in the Village. A few of the many Village residents who signed up to be Village hosts had the opportunity to host our first visitors in this program. Special thanks to Sharon Rubin, Sharon Saks, Dan Schaefer, and Keller Lappenlatz for working this fun.

The high school students ate in the Commons, were treated at the Health Commons, went to the Thursday Night Dance, and spent Friday morning visiting a class and touring the campus. They seemed to enjoy their visit.

**CPR Class**

On Wednesday, March 9, the Housing Office is sponsoring its third CPR class. The class will meet in the Student Union Meeting Rooms A & B from 6:30 to 9:30 p.m. A fourth class may be set up. Check with Sherri in the Housing Office.

**R.A. 1983-84**

R.A. selection is right around the corner for the 1983-84 academic year. R.A. applications and job descriptions will be available at the Housing Office on March 18. If you are interested in the position, talk to your R.A. and the other R.A.'s in the Village. More information will be provided after March 18.

**R.A. Input**

The Housing Office would like to see more student input in the R.A. selection. If you are interested in participating in the interview process, please see Sherri in the Housing Office by March 25.

**The Continuing Saga of Pomp and Circumstance**

Matt Agretti was released from prison on bail in time to attend Millissa’s funeral. Baxter was irate when Matt arrived. He accused Matt of being a murderer. He attacked Matt and told him he was going to jail for killing Millissa. Baxter was going to make sure of that.

Meanwhile, Captain Trench received startling new evidence. A nurse at the hospital had discovered from a patient that someone other than Matt had gone into Millissa’s room the night of Millissa’s death.

Dean John Colby met Christine Blake, a new sociology professor at Fibber University. John and Christine found that they had a great deal in common and began to spend a lot of time together. John’s life was finally pulling together.

Captain Trench had Matt, Anne, Baxter, and Gina all meet him at the hospital because of the new evidence. When they arrived they found that he was going to re-enact the night of Millissa’s death.

He went to Millissa’s room and had a nurse lie in bed to simulate Millissa and he acted as the one who pulled the plug. Captain Trench did exactly as he imagined it happened. Suddenly, Baxter broke down in tears and yelled for him to stop. He couldn’t watch it, not again. Baxter admitted his guilt. He had killed Millissa. Matt hadn’t done it.
**Int’l Women’s Day**

On March 8, 1857, women from the garment and textile industry in New York staged a demonstration protesting low wages, the 12-hour workday and increasing workloads. The event called for improved working conditions and equal pay for all working women. Their march was dispersed by the police, some of the women arrested, and some trampled in the confusion.

Three years later, in March of 1860, these women formed their own union and called again for these demands to be met. On March 8, 1908, thousands of women from the needle’s trade industry demonstrated for the same demands. But now, 51 years later, demands for legislation against child labor and for the right of women to vote are added demands for shorter hours and better working conditions.

In 1910, the German labor leader Clara Zetkin proposed that March 8 be proclaimed International Women’s Day in memory of those earlier struggles of women for better lives.

Over the next sixty years, March 8 was celebrated mostly in socialist countries. By 1967, the day began to be celebrated by some groups in the United States. In the past few years it has become a widely celebrated day for most women’s organizations and groups. Rallies, forums, panels, conferences, demonstrations, radio programs, media shows and school programs will all be part of the 1983 celebration of women’s rights and their contributions to the history and culture of the world.

NATIONAL WOMEN’S HISTORY WEEK is celebrated each year during the week in which March 8 falls.

This year, 1983, is the 75th anniversary of International Women’s Day. Celebrate.

**Mktng Club**

Hi again. This is a little line to let you know what is going on in our club. For the rest of this year we are marketing plans for next year. We will be having field trips, speakers, and fun. We need help with suggestions for this coming year. Please come to our meetings on Thursdays at noon in PL 500 South, with ideas for all. We need everyone’s input for an input to work well.

Come and join us!

**Scholarship Bank**

Students in need of financial aid for next fall should begin now to apply for the thousands of scholarships being offered by private foundations, trade and civic groups and other sources.

There are over 25,000 different scholarships available, according to the director of The Scholarship Bank. Scholarships are available from tax exempt foundations that are required by law to make a certain amount of financial aid available each year in order to maintain their tax-exempt status.

The Scholarship Bank matches students with available aid and sends the student a print-out of the private financial aid sources that appear to be most promising for that student. Each student may receive up to 50 sources of aid. Most scholarships have a value of approximately $1,000, and many are renewable annually. Financial need is only one of several criteria to receive aid. According to The Scholarship Bank, major in college, occupational goal, geographic preference, military service of the student or his parent, employer, union membership, academic standing, ethnic heritage, and whether the student is interested in work-study, loans, essay contests and the like all determine eligibility for aid.

Students wishing to receive a print-out should send a stamped, business-size self addressed envelope to The Scholarship Bank, 10100 Santa Monica Blvd., No. 750, Los Angeles, CA 90067. A questionnaire for the student to fill out describing him/herself will be sent back to the student and the applicant then can receive the personalized information.

---

**Intercollegiate Sports**

In response to interest expressed at all levels, including the Chancellor’s Office, President Anthony H. Evans has established a task force to investigate the possibility of initiating intercollegiate athletics here. A campus forum is planned for April. The task force will report its recommendations to President Evans by early June.

Dean Ward McAfee (Social and Behavioral Sciences) chairs the task force, which has been divided into four subcommittees. They are:

- **Campus and community support** — Acting Dean John Hatton (Dean of Students Office), chair, (Dean of Services Office), chair; Perry Amendt, alumnus; Dr. Jill Buroker (Philosophy); Lee Ann Overstreet (Associated Students Executive Assistant and student).
- **Sports facilities and personnel** — Acting Executive Dean James Urata (Plant Operations), chair; Richard Laabs (Children’s Center), student, Dr. Ronald Dowd (Physical Education and Recreation).
- **Finance** — Dr. James Thomas (Academic Administration), chair; Lance Masters (Business Administration); Dr. Reginald Price (Plant Operations); Donald Sapronetti (Accounting); Dr. Barbara Sirotnik (Business Administration).
- **Conference participation and scheduling** — Acting Executive Dean James Urata, chair; Dr. Buroker; Dr. Ronald Dowd (Health Science and Human Ecology).

A Special Education Scholarship Available

The Council for Exceptional Children, Local Chapter 378, is offering a $200 scholarship to a graduate level student interested in working in special education or ancillary services. The scholarship is for the 1983-84 school year. The applicant must have a 3.0 grade point average and be a resident of San Bernardino County.

Applications should be mailed to Jeanne C. Davis, Program Manager, Students in need of financial aid for the 1983-84 school year. The applicant must have a 3.0 grade point average and be a resident of San Bernardino County.

Applications should be mailed to Jeanne C. Davis, Program Manager, CSCSB Financial Aid Office.

The Veterans Administration announced that it is seeking applications for its Health Professional Scholarship Program for the 1983 fall school term.

The program, authorized by Congress, provides support for baccalaureate and master’s nursing students on a pay-back-in-service basis. The scholarship provides tuition, educational expenses and a monthly stipend with participants agreeing to serve a minimum of two years as a full-time registered nurse in one of VA’s 172 hospitals or 226 outpatient clinics.

Six million dollars of scholarship support is available during the first year of the program to 342 students from a pool of more than 2,000 eligible applicants. Most participating are third and fourth year baccalaureate nursing students while a few awards were made to master’s degree candidates. These master’s students are pursuing clinical specialties particularly needed by the VA, including gerontology, medical/surgical, and adult psychiatric/mental health. In 1983-84 school year, master’s students in Nursing Service Administration will be eligible to apply for the Scholarship Program.

Applications for the scholarships and information about the program are available from the CSCSB Financial Aid Office. Requests for application materials may be made to the Scholarship Program before May 10, 1983. Completed applications must be submitted to the Scholarship Office no later than June 1, 1983.

EPA Mismanagement

by Wayne Dean Parkinson

Three years ago, Congress created Superfund, a $1.6 billion dollar pool of money to help clean up toxic waste dumps and help prevent more poisonous substances from seeping into the nation's soil and ground water. Three years later, 418 dangerous sites have been identified, and to the despair of local governments and the concerned, only five of those sites have been cleansed.

There are an estimated 80,000 chemical dump sites, one of the largest and most potentially dangerous is the Springfellow Acid Pits near Riverside, CA., where 32 million gallons of toxic wastes have been dumped. Twenty-nine percent of water wells are polluted in cities with populations over 10,000.

Who is trying to fool whom? When the Reagan Administration started its new policies, there were about 14,075 EPA employees. Now there are 10,396. In the area of hazardous waste personnel dropped in two years from 311 to 75. More reductions and cutouts is predicted.

Only one-half the number of civil rights cases against air and water polluters were turned over to the Justice Department last year, compared to 311 to 75. More reductions and cutouts is predicted. Only one-half the number of civil rights cases against air and water polluters were turned over to the Justice Department last year, compared to 311 to 75. More reductions and cutouts is predicted.

The Reagan Administration may be able to manipulate the economic indicators and unemployment statistics, but these EPA figures are too self-evident. Reagan and most of his henchmen are simply not capable of understanding what is at stake if something is not done.

Once ground water and soil is saturated with toxic chemicals, it is useless for human use for generations, period. When it is used, a certain increase in the rate of cancer, leukemia, and birth defects, along with a general decline in health, occurs. This is not theory but a fact, with Love Canal, NY, and Times Beach, MO, as proof, as well as smaller less publicized instances of toxic waste leakages.

As technology grows more complex, there is need for more environmental checks for the protection of the people and industry. Most of what is causing the trouble now was dumped 20 to 30 years ago. What kinds of messes are yet to turn up by the year 2000?

According to Harris Polls and Continental Group, Inc., surveys, a very strong majority of Americans (65 to 77%) believe that the environment should be a top priority, even at the expense of the economy. Reagan is definitely not listening to

the mandate of the people as the Republican Party once stated. He only listens to that which serves his purposes and the interests of his administration, most of whom were selected from the higher ranks of non-progressive industry.

Considering the paper shredders, the missing and disappearing documents, the erasures on subpoenaed information, the outright lies, conflicts of interest, political manipulation of clean-up activities, and harrassment of EPA whistle-blowers, I do not believe that Ann Gorsuch Burford should not be only the scapegoat for contempt of Congress. She was generally following orders. I believe that Reagan and his advisors should be held directly accountable for this political cover-up and that the EPA should be taken away from the executive branch and placed under the stricter scrutiny of the legislative and judicial branches of government. This would insure that the EPA be more directly responsible to the real mandates of the people, and that laws would be enforced rather than ignored or open to negotiation when the public safety and health is at stake.

Another suggestion is that when someone is placed in a position to protect the environment, he or she should come from an ecology/administrative background. I have gathered most of my information from articles in Time and U.S. News and World Report magazines.

GEE... A THREE BEDROOM HOUSE FOR ONLY
TWO HUNDRED BUCKS... WHAT'S THE CATCH?

the adventures of Isaac and Isabelle
by Wayne Dean Parkinson

Isaac and Isabelle sat on the front porch and watched
them install the pipe.

The next morning the creek ran beer and ketchup red; phosphate sucked hung like whipped cream from the cat tails and the fish started swimming sideways.

They were told not to worry.

Isabelle’s baby was stillborn
and Isaac is dying of brain cancer.

It must have been a coincidence,
as the glass of tap water touches your lips

do you make long term plans?

Everything You Wanted to Know About Podiatry and Were Afraid to Ask

sponsored by the Pre-Health Profession Club

Wednesday, Mar. 2, at noon

BI 101

A representative from the California College of Podiatric Medicine will present a film and will speak on campus about the opportunities in the field of podiatric medicine.
Are you able to pay an additional student fee of $230 to attend CSU next year?

If Governor Deukmejian's proposed 1983-84 budget goes through, the average student fee will be $671.00.

The $230 Increase
* is designed once again to help balance the state budget
* won't improve the quality of your education

In addition to the $230 increase in the Governor's state budget, he has also called for severe cuts in education. We'll be paying more for less.

Students are urgently requested to write their legislative representatives expressing concern about the dwindling support for education by the legislature.

Higher fees would seriously affect access to postsecondary education. Excessive student fees means faculty layoffs, lower enrollments and a diminishing commitment from our legislators towards higher education.

Do your part and write your state representatives. Tell them how the increases in fees and cuts in education affect you. Help us help ourselves.
