STUDENT UNION - Bids for the Student Union go out today, with bid opening scheduled in four weeks.

Award of the contract is contingent upon approval by the CSUC Board of Trustees of the sale of approximately $480,000 worth of bonds at the 7% required interest ceiling to supplement the $307,000 on hand from student body fees and interest and additional $90,000 expected to be on hand by September, 1977. The proceeds from the sale of bonds are necessary to complete funding of the project, expected to cost $550,000 for the building, with additional money going for minimal furnishings, inspection fees and charges, landscaping, architects' fees and various reserves for contingencies and the first year of operation.

The facility will have a large multipurpose room equipped with a small stage and projection booth, an adjoining coffee shop with convenience-food equipment, patio and pub, large game room, music listening room, lounge and offices, two darkrooms, a central atrium and three meeting rooms.

BOOKSTORE - The Board of Trustees, at its meeting last Wednesday, approved the relocation of the Bookstore to a site southeast of the Administration Bldg. An architect will be appointed within 30 days and schematic plans will be prepared. Another six months will be needed for all plans and drawings to be completed and approved, according to Vice President J. K. Thomas, who states that the project is expected to go out for bid in December. The $155,000 building with 5,000 gross sq. ft., will be more than twice the size of the area now occupied by the Bookstore.

HEALTH CENTER - The CSUC Board of Trustees has approved schematic plans for the Student Health Center. The building, 10,000 gross sq. ft., will be located just north of the Commons. The architect is now proceeding with the preliminary plans and working drawings. The project, estimated at $800,000, should go out to bid this fall.

NEW MASTER PLAN ARCHITECT - Richard Dorman, for the past eight years the College's Master Plan Architect, has relocated his offices to Santa Fe, New Mexico, and has resigned his CSCSB position. The Trustees appointed the firm of Harnish, Morgan and Causey of Ontario to be the new consulting architects for the campus. "We are pleased with this appointment," states Vice President Thomas, "since we have worked with them on the residence halls and Student Union building." We also appreciate the fact that they are in fairly close proximity to the campus.

NEW FOOD SERVICE COMPANY TO ASSUME CAFETERIA OPERATION - Beginning June 16 the Professional Food-Service Management (PFM) a nation-wide corporation, will take over the operation of the College Cafeteria, replacing Service Systems Corp, which had the Cafeteria food service contract for three years, under the management of Mary Doherty. The proposal submitted by PFM was the lowest meeting the specifications of the College.

The PFM Company now serves Cal State Dominguez Hills, Bakersfield and San Francisco State facilities. The new company will offer the same schedule of meals cur-

Leonard Farwell, Business Manager, states that the College has been extremely fortunate to have had the services of Mrs. Doherty as Food Service Director. "She cares about us and has been conscientious beyond the call of duty in meeting our needs. The students especially have liked her. Her many friends on campus will miss her." Mrs. Doherty, entering her 13th year with Service Systems Corp., will be assigned to another location by the company.

The Sunday evening, May 30 program of the Leslie I. Harris String Quartet will perform the music of Joseph Haydn, Alexander Borodin and Ernest Bloch at 7:30 in PS-10.
