COMMISSION TO EXAMINE FACTORS IN CSUC FACULTY SALARY PROPOSAL

Chancellor Glenn S. Dumke has called for a new examination by the California Postsecondary Education Commission of technical factors which would result in increased salary recommendations for faculty in the California State University and Colleges.

He said the 2.2 percent salary increase proposed by Governor Brown for CSUC faculty is based on the Commission's preliminary report from last year which fails to accurately reflect inflationary trends and is based on an outmoded comparison technique.

The result, according to the chancellor, is a "considerable reduction in real income" for the faculty. They are the only group of state employees for whom the governor did not recommend 5 percent. The trustees had recommended 8.5 percent salary increase, plus equity adjustments.

Roger C. Pettitt, commission chairman, said the 2.2 percent recommended by the governor does not represent the Postsecondary Commission's recommendation for CSUC faculty pay increases for next year.

In response to Chancellor Dumke's request, Pettitt said "the preliminary and limited nature of the report will be made known to Governor Brown's office, along with the development of a new methodology for future reports which more accurately reflect inflationary factors."

"Mostly New"

NEW COMPOSITIONS BY CSCSB FACULTY AND STUDENTS HIGHLIGHT MUSIC PROGRAM

The compositions of two CSCSB music professors and two senior music majors will be featured in a unique chamber music program called "Mostly New."

Coming Sunday evening at 7:30 in PS-10, the concert will be conducted by Richard Saylor, Professor of Music. Admission is free and open to all.

Dr. Saylor's 1976 composition, "Partitions," will be one of the selections played. Other new music includes "What Would -" by James Teel, senior music major, and "Quartet" by Matt Riedel, also a senior music major.

"Three accompanied poems by e.e. cummings," a 1972 composition by Louis Ruff, studio music instructor, will round out the "new" portion of the program. "JQVXTXBFDZR," pre-composed material with improvisation, will feature Mr. Riedel on electric piano, James Teel on synthesizer; Stephen Teel, mixer, and

The not-so-new portion of the program is Edgar Varese's "Density 21.5" for unaccompanied flute performed by Candice Mitchell, sophomore music major; Alan Hovhaness' "Kaldis, Opus 91," concerto for trumpets, piano and percussion; and Earle Brown's two-piano "Corroboree."
