The Final Budget approved by the Legislature and the Governor provides $637,814,609 in support funding for the California State University and Colleges in 1977-78. This amount will come from the State General Fund.

California State College, San Bernardino, will receive a budget of $11,099,122, based on full-time equivalent students in 1977-78 of 3,200.

For the CSUC, personnel costs comprise approximately 81.1% of the Final Budget, excluding salary increases.

An additional $28,459 is included in the CSUC Final Budget to continue operation of the Soda Springs Desert Studies Center, which is under the direction of Cal State, San Bernardino.

The College has been allocated $125,000 through the Capital Outlay Budget for the CSUC to provide a drainage system. Storm drains will be installed inside the curb line running east along North Park Blvd. to the main entrance.

The College has received tentative word that funding in the amount of $500,000 is seriously being considered by Federal agencies which will finance completion of College's drainage system. If such approval is received, the drainage system of the College will be complete and the parking lots will not be flooded and remain with standing water as they have in the past. Flood water will be caught in catch basins and flow into the County Flood Control terminus at Western Avenue and North Park Blvd., which is the southeast boundary of the College campus.
