INTEREST IN KING TUT LECTURES PHENOMENAL

A teenager who died more than 3,250 years ago is winning more fame today than at any time during his life.

With hundreds of calls from the public and nearly 100 members of the College community turned away for tickets, the two lectures on King Tutankhamun and his times have sparked an unparalleled response.

Cambridge-educated Dr. Brian M. Fagan, Professor of Anthropology at UC, Santa Barbara, will give the lectures next Monday as part of the L.S.B. Leakey Foundation Lecture Program, timed to coincide with the exhibit of the treasures of King Tut to be shown at the Los Angeles County Museum of Art next month.

The Theatre Arts Department reports that nearly 100 students, faculty and staff were unable to secure tickets for the 3:30 p.m. lecture and the phone requests for seating for the evening performance are still coming in. Some callers spoke of bringing busloads of people.

The first 300 to be in line for the evening lecture will be seated. Additional chairs have been added to bring the usual 250 seats to 300.

Dr. Fagan's presentation involves several slide projectors and a multiple screen, providing the viewer with a tour through the tomb of Tutankhamun during the hour and a half lecture.

FACULTY LEAVES FOR 1978-79 ANNOUNCED

Seven sabbatical leaves, the most ever granted by the College, have been awarded for next year.

Three members of the faculty will be on leave throughout the entire 1978-79 academic year:

Arlo Harris, Assoc. Prof., Chemistry, plans to do research on a project involving homogeneous platinum catalysis utilizing platinum metal complexes at the University of London, King’s College. The project includes a study of a rare natural dye occurring in the feathers of the African Turaco bird. This portion of the research will be in conjunction with the London Zoological Gardens in collaboration with Dr. Stephen D. Robinson, senior member of the faculty at King’s College.

Helene Koon, Assoc. Prof. & Chairman, English, will edit for publication a series of works, prior to 1800, by women writers. She will work at the British Museum Library in London and at Oxford University. The editing will be in collaboration with Prof. Mary Mahl of U.S.C., who with Dr. Koon, co-authored an anthology of

PAYDAY IS TUESDAY, JANUARY 31.

(Continued on page 2)
early women writers published last year.

The new project will concentrate on British authors and feature complete works, such as a full-length play re-issued with introductory material and notes.

Paul Johnson, Prof. and Chairman, Philosophy, in a difference-in-pay leave, will do research on the project "Ideals of the Good Life," comparing Western ideals with those of Buddhism and Taoism. Most of the year will be spent at the Nyingma Institute at Berkeley. The results of the project will be compiled into book form.

Four faculty members will be on leave for one term next year:

Robert Stein (F '78), Assoc. Prof. and Chairman, Math, plans to complete a book on college algebra and trigonometry which will contain discovery-type exercises which will encourage the student to work a carefully chosen sequence of questions, resulting in a less-conventional textbook. It will be published by Goodyear Publishing Co. in Santa Monica.

David Decker, Assoc. Prof., Sociology, (F '78) will devote his time to completing his book on social gerontology. Entitled "The Dynamics of Aging," the text will deal with aging of society and individuals. Scheduled for publication by Little, Brown & Co., Boston, it will be available in January, 1980.

Alexander Sokoloff, Prof., Biology (S '79) will work on two projects. Using information obtained from his own research in the area of flour beetles, he will do special research in the field of genetics leading to the completion of a textbook for undergraduate students. The second project will be to compile in written form the results of his Tribolium research.

Ronald Barnes, Prof. and Chairman, Theatre Arts (S '79) will analyze the College's new Creative Arts Building and how it is functioning in practice as opposed to the theory of its use when it was planned. He plans to write an article on the architecture specifically of the Theatre and the individual spaces as they relate to each other.

156 GRADUATES EARN One-hundred-fifty-six graduates completed their degrees at the end of the Fall Quarter. Bachelor degrees were earned by 121 seniors, as follows: 112 BA, 6 BS and 3 BVE. Thirty-five students completed requirements for masters degrees: 13 MBA, 20 MA in Education, one MA in psychology and one MS in biology.

High honors were earned by Darrell Rupert (administration) and Carol Ann Smith (psychology). Honors were received by Stephen M. Bishop (administration), Cheryl Lynn Charrow (liberal studies), Janella Gardner (sociology), Mathew R. Rydell (music) and Donna Zdunowski (health sci.).

The 58 Summer '77 graduates added to Fall '77 brings the total for 77-78 to 214. Summer, Fall, Winter and Spring quarter grads form the Class of 1978.

OPENING OF RARE EXHIBIT - Opening reception for the West Mexican Tomb Sculpture exhibit will be held 7 p.m., Feb. 1, in the Art Gallery. The collection is exhibited for the first time ever.
The Student Union Building has been completed. The items holding up formal acceptance finally have been finished by the subcontractors. Vice President J. K. Thomas states, "We think we have a very beautiful, functional building which will meet our needs for the next ten years. The students will be very pleased with it."

Dr. Thomas said that some work still remains to be done outside the building, such as installation of a fence around the courtyard. However, the Student Union Coordinator's office will move into the new facility next Wednesday and student body officers and staff are expected to occupy their new quarters in the building around February 6, when it will be open to the public. A general open house is expected around March 1.

Walkways connecting the Creative Arts Bldg, Student Union and Commons are included in the site development plans going out for bid within a few weeks. Also in the plans are a walkway leading to the Student Union from the main parking lot as well as lighting, storm drains and general grading.

A change in the College holiday schedule, upon the recommendation of the Staff Council, has been made in the Academic Calendar for 1977-78.

Lincoln's Birthday, February 13, has been changed from an "in lieu floating holiday" (see Jan. 6 Bulletin) to a designated "in lieu holiday," to be taken Monday, July 3, 1978. This change will provide a four-day holiday over the Independence Day weekend.
