The Board of Trustees of the California State University and Colleges took actions on the following matters at their January 25 meeting:

- Amended Title 5 of the California Administrative Code to increase the number of units needed for the residence requirement for the bachelor's degree from 24 to 30, and to provide that 24 of these units must be upper division and 12 must be in the major. They further authorized the Chancellor to designate particular extension courses and credit-by-examination as appropriate for residence credit and authorized the campus Presidents to permit alternative means of meeting residence requirements where individual cases so merit.

- Authorized the Chancellor to establish and adjust an Instructionally Related Activities Fee which shall be charged all regular students beginning in the Fall of 1978. Revenues from the fee shall be used for the support of instructionally related activities in the CSUC in accordance with the recommended guidelines of the Committee on Finance, one of which indicates that "the level of the fee shall be established for each campus by the Chancellor upon the recommendation of the campus President, initially not to exceed $10 per academic year and not to be increased beyond that level before fall, 1981."

- Augmented the Board's 1978-79 budget request to the Legislature and the Governor to provide, in addition to a 9.9 percent salary increase for all academic employees, an equity salary adjustment for librarians averaging 5 percent.
