CAMPUS IMPROVEMENT CONTRACTS PENDING

Two contracts for improvement of the campus are currently awaiting approval by the Chancellor's and General Services Offices.

One contract, calling for grading of the mall area located generally between the Student Union and the Creative Arts buildings, south to the Parking Lot, is expected to be awarded to the apparent low bidder, J. D. Stine of San Bernardino. Mr. Stine is also the contractor on the storm drain project now under way along North Park Blvd.

The $26,000 mall grading job is preparatory to a second phase of work which is expected to be put out for bid some time in July which will add planting, irrigation, and walks.

The second contract pending approval will provide the final storm drain work for the campus site. Expected to be awarded to Bondiman-McCain, whose low bid of $106,000 was received last week, the project will continue the last leg of the campus storm drain system. Upon completion storm waters will be carried off campus and eventually flow into the County Flood Control terminus.

Work on both projects is expected to begin in about a month.

ADMINISTRATIVE INTERNSHIP PROGRAM
TENTATIVELY BEING OFFERED
BY CSUC FOR 1978-79

A proposal which would provide nineteen administrative internships (one for each campus) has been submitted by the CSUC for funding. Both the Governor's and Legislature's proposed budgets recommend support for this program. However, since final approval rests on the 1978-79 budget in June, 1978, the program is in the contingency stage. But since the program must be put into operation by September, preliminary steps need to be completed this spring.

The program will provide $510,510 for an upward mobility program aimed at ensuring that women and minorities are given equal opportunities for placement and advancement in administrative positions in the CSUC. Application is open to faculty and staff who have a permanent/tenured or probationary position on their campus who desire to prepare for a career in administration or management.

Interns will not be assigned to their home campus. They will receive their regular salary during the Intern period. Information concerning the program will be posted on bulletin boards throughout campus and in all school deans' offices. Applications must be filed by May 8, 1978.
