$99,000 RECEIVED FROM GOVERNMENT TO COMPLETE MALL, ETC.

A check for $99,000 has been received in the Chancellor's Office from the Federal Public Works Program earmarked for the College to complete the campus mall and two other projects. The funds come from a surplus remaining from the government's allocation to the College of $500,000 in 1977 for installation of the storm drain along North Park Blvd.

Vice President J. K. Thomas has been negotiating with the Regional Office of Public Works in Seattle for release of the funds. Approval was received to use the money for completing the mall, which will involve adding amendments to the soil and hydromulching (seeding with Manhattan rye, which is similar to the grass in the main entry), providing about six acres of additional playing fields for the P.E. area immediately south the the existing field. This will involve major grading, irrigation and planting. Also scheduled for construction is a small storm drain installation north of the Library which will empty the standing rain water which is known on campus as Nelson's Lake.

Plans are nearly completed for all three improvements, and following approval from the Office of State Architects, the contractor currently working on the construction of the new parking lot will undertake the additional work at the same time.
