BUILDING PLANS APPROVED
FOR CHILD CARE CENTER

At a special meeting of the CSUC Board of Trustees' Committee on Campus Planning, Buildings and Grounds, preliminary plans were approved for the College Child Care Center Building.

The committee, acting on behalf of the full board, approved the schematic drawings submitted by the project architect, Harnish, Morgan and Causey, also the master plan architects for the College.

The next step will be to proceed with preparation of the working drawings following authorization by the County of San Bernardino, one of two agencies which is providing the money for the building. The other is the City of San Bernardino.

It is expected that completion of the working drawings will take approximately two months. One month later the project should be advertised for bidding.

The Child Care Center building will be constructed immediately west of the Student Services Building at an estimated cost of $150,000. It will match the Student Services Building in type of construction.

A "B" average in all high school work is required. Students applying while still enrolled in high school are not required to pay the usual $20 application fee.

The College is participating in a state-wide program which gives high school seniors and other college-bound students a chance to earn college credits before officially enrolling in a college in the CSUC system. Known as equivalency examinations, it is a series of tests offered each spring by all 19 campuses.

The tests give incoming students the opportunity to demonstrate knowledge of English, math and science equivalent to that of college students who have completed basic courses in these fields. Students successfully passing the tests receive academic credit in these areas.

The English test will be given here April 28; applications must be filed by Friday, April 6. Tests in four areas of math and science will be administered on May 19; they have an April 27 deadline.

Application forms are available in the Counseling and Testing Office, PS-227. Students may take the tests at a campus other than the one they plan to attend. Students passing both components of the English test qualify for nine quarter units, and 

The fee to take the English exam is $20. Fees for science and math tests range from $10 to $50, depending on the number and kind of exam.
