The schedule for the visitors next week will be the same as for Dr. Olander. The meetings, held in the Lower Commons, will be: 9-10 a.m., staff; 10 a.m.-noon, faculty; 2-3 p.m., students; 3-4 p.m., tour of campus; 4-5 p.m., meeting with trustee; 5-6:30 p.m., reception with community members, including the various advisory boards. Trustee Lynne Myers and Dr. Robert Tyndall, acting vice chancellor for faculty and staff affairs, again will accompany the visitors.

DR. WAGNER RECEIVES $50,000 GRANT, WILL LEAD PROFESSIONALS TO MEXICO

Dr. Steven Wagner (Education) will lead 20 psychologists and special educators working in the southern California public school system to Cuernavaca, Mexico this summer in a second language and psychological assessment personnel preparation training program. The program is designed to enhance the participants' work with limited English-speaking students.

Selected by Dr. Wagner from 400 applicants, they will work with Mexican physicians and special educators for four weeks during August under a program funded by a $50,000 grant from the State Department of Education. Dr. Wagner, who initiated the concept and wrote the grant, is coordinating the program. While in Mexico, the participants will live with Mexican families and speak only Spanish.

During the last week in July, on-campus training will be conducted in assessment techniques. Following the study in Mexico, the participants will receive in-service training one day a month during the 1982-83 academic year in assessment techniques and Spanish.

Weekend Class Preference Survey Results Announced

More than one-third of the students responding to a spring survey would take weekend classes. Results of the survey on student interest in weekend classes, conducted during registration, are announced by Institutional Research. Of the 2,810 students returning usable survey cards, 34.6 percent said they would enroll in weekend classes.

Courses required for a major were preferred by 56.4 percent of the respondents. The instructional times showed that four hours on Saturday for five units was the most preferred time and unit combination. Almost twice as much interest was shown for Saturday morning than Saturday afternoon, with Friday evening being the least preferred.

Students in the School of Administration showed the most interest in taking weekend classes, followed by education, natural sciences, social and behavioral sciences, liberal studies and, finally, humanities. Graduates and seniors were the most interested in taking weekend classes, followed by juniors, sophomores and freshmen. Those least interested were first-time freshmen and transitory students.
