TRUSTEES PLACE PRIORITY ON CSU BUDGET CONTROL

The Board of Trustees has decided that high priority objectives will be changes in the budget authority of the board and the campus, specifically reappropriation of savings, exemption from computer procurement restrictions and exemption from Department of Finance budget control.

Also during the Jan. 27 meeting, the trustees acted upon findings of the Committee of the Future by directing that staff analyze data, prepare a fuller report and manage the next steps in the planning process. The trustees also resolved that a systemwide Symposium on the Future be held during 1983 and that they consider allocating resources for pilot programs such as in faculty development, varied modes of teaching and program structures. They directed the chancellor and chairman of the board to take steps to bring about the directives after consultation with the Executive Council, Associated Students and Academic Senate.

In other action, the trustees:

--Adopted internal regulations for travel expenses and allowances and for rates for housing and lodging to reimburse CSU employees who travel on state business.

--Approved a proposed agenda for a joint meeting of the Board of Trustees and the Board of Regents of the University of California in spring 1983.

--Received a report from the Committee on Collective Bargaining that it ratified the tentative agreement between the CSU and the State Employees Trade Council for Unit 6, skilled crafts.

--Approved schematic plans for the Fullerton Hilton Inn and Conference Center to be built on the Cal State, Fullerton campus.
