The college's 49th major, a B.A. in communication, will be introduced this fall. Approval of the program was received Tuesday from the Chancellor's Office.

Dr. Fred Jandt, who joined the faculty last fall to develop the major, is the program coordinator and been appointed associate professor of communication. Two additional faculty plus part-time instructors from the community will be engaged to teach the courses.

Course work will focus on five cluster areas: professional writing, media production (primarily radio now), business communication (public relations), training communication and Hispanic communication. The latter cluster, unique in the field, is expected to become an important dimension in the major, Dr. Jandt said. All communication majors will be required to have an internship experience.

New department chairs in the School of Social and Behavioral Sciences are Dr. Charles Hoffman, who will head psychology beginning next fall, and Dr. Tom Meisenhelder, who already is chair of sociology.

Dr. Hoffman, a member of the faculty here since 1974, is coordinator of the child development major, which will become the human development program in the fall. His primary thrust in research is in parenting; he and colleagues have been involved in research projects which also provide community service. Currently professor of psychology, Dr. Hoffman received his B.S. and Ph.D. from Adelphi University.

Dr. Meisenhelder, who became department chair in spring quarter, came to Cal State in 1975 after completing his M.A. and Ph.D. at the University of Florida. He earned his B.A. from Wake Forest University. He is now part of a team of three faculty members who received a grant to study the effects upon the community of the closure of Kaiser Steel. Dr. Meisenhelder will become a full professor this fall.

Two chairs in the School of Social and Behavioral Sciences will be returning to their posts this fall after leaves. They are Dr. Edward Erler, who has been in Washington, D.C., this past year as director of the Office of the Bicentennial for the National Endowment for the Humanities, and Dr. Thomas Pierce, who has been acting associate dean for undergraduate programs for the past two quarters. Erler is chair of political science and Pierce heads economics.

Reappointed to a second term as chair of the Department of Geography is Dr. Richard Rowland, who also becomes a full professor this fall.

After completion of the program later this month, participants will be eligible to take another 18 units which will qualify them for a permanent permit.

The courses are offered through Continuing Education with Drs. Louise Burton, Alison King and Peggy Lenz (Education) and Dr. Ansa Ojanlatva participating.
