Food Chains Present $5000 In Scholarships

The Western Association of Food Chains has awarded the university $5000 for five scholarships for students in business administration.

Jack H. Brown, president of Stater Brothers Markets, presented the association’s third and largest contribution to President Anthony H. Evans in a brief ceremony on campus. Contributions from the association, which is comprised of leading food chains in the 14 western states, now total $13,000. Last year’s award was $4000.

The scholarship gift from the Western Association of Food Chains is an especially significant one, because of its size and the continuing support of the organization, President Evans said.

Five $1000 scholarships are to be awarded to full- or part-time students majoring in business and preferably to students who are employees of member companies Brown indicated.

The sole purpose of the association is to raise funds for scholarships, with the bulk of the contributions going to the University of Southern California. In speaking with several of the recipients of the 1984-85 awards, Brown said, “Most of us worked our way through school, so I get more satisfaction coming here and seeing bright young students for whom a $1000 scholarship can help make the way easier.”

Brown is a charter member of the Board of Councillors for the School of Business and Public Administration and has worked with the Marketing Association. He is the secretary of the Western Association of Food Chains.

Learning Assistance Services Offers Student Support

The Learning Assistance Services staff are encouraging faculty to inform students of academic assistance available to them on campus.

Retention services offered previously by the Learning Center, the Educational Opportunity Program and SAIL (Student Assistance in Learning) have been consolidated under the direction of Jean Peacock.

The SAIL Office is in Trailer 1-B. The EOP tutoring services will be held in the Learning Center, PL 37; writing assistance may be obtained in SS 173; and reading workshops will be held in SS 123.

"Students need to be reminded that there is an array of services to help them develop cognitive and effective skills," said Peacock. "Many students are not even aware that tutoring is free and offered on Saturdays as well as evening hours."

In addition to tutoring, the Learning Center offers writing assistance for students having writing/composing difficulties in all disciplines. The basic writing lab which must be taken as a corequisite for the English 100 course also is offered through the Writing Program.

The Mid-Quarter Referral program allows faculty to notify the center of students who may need academic assistance. The center can then contact these students and provide them with a variety of support services.

Learning Assistance Services also has been involved in offering self-development workshops and urges faculty and staff to submit suggestions for future workshop topics.

**Trustee Grissom Shares Views**

Expressing his eagerness to learn everything he can about the CSU system, the alumni trustee Lee Grissom shared his initial impressions of the Board of Trustees and the prospects for education in California during his first official visit here Monday.

The trustee, appointed last October by the Statewide Alumni Council, told the campus, "you have a tremendous group of supporters in the trustees." Board members do read, and make every effort to understand, the volumes of information they receive about the CSU.

Seeing a brighter future for education in California, he commented, "After 16 years of benign neglect, we now have a governor who truly does admit the priority of his administration will be the quality of education in the state." Grissom, the chief executive officer of the San Diego Chamber of Commerce, believes business is finally beginning to understand the campus as a driving force for economic changes and progress. He described ways in which the San Diego Chamber has assisted San Diego State by securing new equipment and support from businesses located in that area.
