Sabbatical Leaves Awarded for ’87-’88

Ten faculty members will receive sabbatical leaves during the coming academic year. Difference in pay leaves also were granted to three additional faculty members. Granted sabbaticals were:

* Dr. Richard Ackley, Professor, Political Science; director, National Security Studies (winter)
* Dr. Ronald E. Barnes, professor, chair, Theatre Arts (one term)
* Dr. Naomi Caiden, professor, chair, Public Administration (spring)
* Dr. Rauf A. Khan, professor, accounting and finance (fall)
* Dr. David J. Lutz, associate professor, psychology (spring)
* Dr. Patrick S. Mcinturff, professor, Management (fall)
* Dr. Renate M. Nummela, associate professor, Teacher Education (fall)
* Pola Patterson, librarian, head of automation services, Library (fall, winter)
* Dr. Cynthia L. Paxton, assistant professor, Health Science (fall)
* Dr. Robert G. Stein, professor, Mathematics (winter-spring)

Difference in pay leaves were awarded to:

* Dr. Stephen Bowles, professor, Special Programs (Education) (fall-winter)
* Dr. Kent Schofield, professor, History (winter-spring)
* Don Woodford, professor, Art (fall-winter-spring)

The time away from teaching and administrative responsibilities will be spent in writing or updating textbooks, completing research, preparing articles for journals, attending graduate school and painting.

Dr. Ackley will compile current journal articles into a book about the use of the sea and write and solicit original essays for major sections of the work, which will emphasize the maritime geopolitical factors which shape a nation’s policy, especially foreign policy.

Dr. Barnes proposes to develop a handbook of materials for use in dramatic literature classes, by developing models of strategies for the undergraduate student to use in outlining the structure of this literature. He will refine models he already has used and will develop additional explanatory materials.

A textbook on local government budget practices will be completed by Dr. Caiden. There is no text available now which concentrates on budgetary decision-making at the local level and the material which is available pays little attention to the southwestern and western parts of the United States. She will focus on the Los Angeles metropolitan area.

Dr. Khan will complete a study of cross-cultural employment attitudes and will offer a series of seminars on international finance in Indonesia during September and October. Some of his research data is being collected in China, where he made arrangements for distribution of his questionnaire during a visit there this fall.

Four articles and a grant proposal will be prepared by Dr. Lutz on his two areas of primary research, alcoholism and reactions to emotional expression by males. He has been compiling data for several years and has presented papers at regional and national meetings. The sabbatical will be used to prepare his preliminary drafts for publication.

A manuscript for "The Toy Culture" plus a companion work for the recently published "Crisis Management in Higher Education" will be prepared by Dr. Mcinturff. The former work, officially titled "The Toy Culture versus the New Elites: A Study of the Interface Between Automobiles and Public Policy Making," is an exploration of the importance of the car as both a symbol of power and a tool for economic growth.
Sabbaticals Awarded
(Continued from Page 1)

Dr. Nummela will visit three centers doing critical research in physiological aspects of learning and memory. They are at the University of Arizona and in Australia. She has been asked to do a book on her research, which is new and potentially controversial.

Ms. Patterson will concentrate on her major field project, part of her final year of work on a Doctor of Arts in Information Science from Nova University. Her project involves study of the selection, implementation and evaluation of an online public access catalog for Pfau Library.

Dr. Paxton proposes to complete three writing projects in areas where she has collected research data. They are: mentoring and women faculty in the CSU, an assessment of participant satisfaction in the Health Fair Expos of 1985 and 1986, and therapy outcomes for adult women with childhood incest experiences.

Dr. Stein will revise his textbook, Mathematics, An Exploratory Approach, originally published in 1975. With making major changes, he hopes to take advantage of the resurgence of interest in teacher preparation as the book was designed for elementary teachers.

With his difference in pay leave, Dr. Bowles will return to graduate school as a full-time student in clinical psychology in the Sierra University doctoral program. The academic work will help him update his past education and counseling experience.

Two projects, both underway, will be developed by Dr. Schofield. He will travel to the Truman Presidential Library, the Library of Congress and the National Archives to complete an article, "Truman, Hoover and Bipartisan Politics, 1945-47." He also will continue his oral history project, interviewing prominent figures in the San Bernardino area.

Professor Woodford will spent the next year in London, devoting the majority of his time to painting. He also will help make arrangements for two major exhibitions which the art department is arranging with British artists.

Fall Graduates
Reception Dec. 12

Faculty and staff are invited to attend the reception honoring fall quarter graduates from 5 to 7 p.m., Friday, Dec. 12 in the Panorama Room of the Commons. Speaking to the graduates and their families will be Dr. Claude Noel, chair of the University Advisory Board; President Anthony H. Evans, Dean of Students Peter Wilson and John Kirwan, president of the Alumni Association. Reservations are requested by the Alumni Office, Ext. 7811.

Student Photographs In Gallery II, Library
Photographs created by students in Photography I, Art 383, will be displayed in two exhibits on campus during the next two months, according to the instructor, Janice Galojuch.
One exhibit, "First Shots," will be in Gallery II in the Visual Arts Building (VA 102). The other will be on the first floor of the Library, in display cases on the north end. The black and white photos depict variations on themes of landscape, texture, water, patterns, reflections and shadows. The exhibits will run through Jan. 14.
With the fall quarter rushing rapidly to a close, a number of campus facilities will provide special hours during finals week beginning Monday. Final exams will be given through Thursday, Dec. 11, with grades due from the faculty on Monday, Dec. 15.

During finals (Dec. 8-11), the Library will be open an extra hour (from 8 a.m. to 11 p.m.). It will be open from 8 a.m. to 5 p.m., Friday, Dec. 12. As finals for Saturday classes will be given on Saturday, Dec. 13, the Library will be open that day from 9 a.m. to 1 p.m. While students are away, the Library maintains hours of 8 a.m.-5 p.m., Monday through Friday.

Three Computer Center labs (main terminal lab in PL 17, Apple IIe lab in PL 42 and IBM-Macintosh lab in PL 52) will be open 24 hours Dec. 8-12. The Apple IIe lab in the Learning Center will be available from 8:30 a.m. to 8 p.m. those days. Open from 8 a.m. to 6 p.m. will be the IBM PC lab in PL 8, the Macintosh lab in PL 13 and the TEC Center satellite lab in PL 54. Student consulting will end on Dec. 8.

For a little physical relaxation, the Physical Education Building will be open from 8 a.m. to 10 p.m., Dec. 8-10. From Dec. 11 through Dec. 24, the building hours will be 8 a.m. to 4:30 p.m., Monday through Friday. Tennis and racketball courts will be open from 11 a.m. to 2 p.m., Dec. 11-23.

The Student Union will provide added hours during finals week--7 a.m. to 2 p.m., Monday through Thursday. On Dec. 12 and 15-19, the Union will be open from 8 a.m. to 4:30 p.m. Food service will be available in the Snack Bar.

With the departure of students from Serrano Village by noon, Friday, Dec. 12, the Commons will also close. It will resume food service on Jan. 7. One residence hall, Mojave, will be open during the holiday recess to accommodate students who requested this service last fall.

Under a new schedule adopted this year, university staff members will enjoy an extra long holiday recess. The campus will be closed from Dec. 25 through Jan. 4, utilizing credits for holidays not taken on the designated date during the past year. The exception will be Friday, Jan. 2 when staff employees must use their personal holiday or a day of vacation time.

Because the December pay day falls within the period of closure, special arrangements have been made for distribution of pay checks on Wednesday, Dec. 31, according to Don Sapronetti, accounting officer. Employees may claim their checks at special locations from 9:30 to 11 a.m. that day. Each major area has designated an individual to pick up checks from the Payroll Office and distribute them. Information on the specific locations is available from each department. The individuals who will be disbursing the checks are:

President's Office
Eileen Kachevas
University Relations
Ruth Moran
Academic Affairs Area
Karen MacIntyre and JoAnn Oliver
Support Services/Budget
Catherine Carlson
Plant Operations
Dennis Stover
Public Safety
Ellen Johnston
Personnel & Facilities Planning
Carlos Marquez
Accounting
Carmen Murillo
Student Services
Karen Newman
Name Change Approved
In School of Education
In order to eliminate confusion over its function, the Department of Special Programs in the School of Education has been renamed the Department of Graduate Programs in Education. The change, reviewed by the Council of Academic Deans, was approved by the Administrative Council.

School Dean Ernest Garcia explained all of the programs in that department require a bachelor's degree or a credential for admission. Confusion sometimes has resulted from the term "special" since grant programs often are considered special programs, he explained.

The other department in the School of Education continues to be the Department of Teacher Education.

Open Forums Set For Student Life Director
All members of the campus community are invited to attend open forums held for candidates seeking the position of director of student life. All will be from 10 to 11 a.m. in the Panorama Room of the Commons.

On campus today is Arthur (Buddy) Couvion, coordinator of student activities at the University of Wisconsin, Parkside. His open forum is this morning. Here last Wednesday was P. Randy Harrell, associate director of university activities and coordinator of academic appeals at Cal State, Fullerton.

Coming next week are: Monday: C. Renee Romano, assistant director of student activities, University of New Hampshire; Tuesday, Susan L. Heyward, coordinator of academic support programs, University of South Carolina; Wednesday: Theodore R. Coberley, director of student activities, Arapahoe Community College, Colorado; Thursday: David Johnson, associate director of the Student Union, Cal Poly, Pomona.

Campus Community Invited To Associates Holiday Dinner
The Cal State Associates' traditional holiday progressive dinner on Saturday evening, Dec. 13 will involve less travel and work for participants this year. Faculty, staff and their spouses are invited to the dinner, which begins with hors d'oeuvres at the homes of President and Mrs. Anthony H. Evans and Vice President and Mrs. Robert Detweiler. The entire group will come together at the University Commons for the dinner and musical entertainment.

In the past, the event was a potluck with different homes for the main course and dessert. With the growth of the organization, larger facilities are needed to accommodate all who attend. The Commons will prepare the festive holiday turkey dinner, reports Mrs. Lorraine (Amer) El-Ahraf, program chair for the Associates. After dinner entertainment will be provided by a brass quintet from the Music Department.

Reservations, at $15 per person, should be made by today (Dec. 5) with Mrs. El-Ahraf. Checks may be sent to Dr. El-Ahraf's office, AD 189.

Last Chance for Holiday Greetings
By acting within the next few days, faculty and staff still have an opportunity to be included in the campus-wide holiday greeting card sponsored by the Cal State Associates. All donations to the Associates' scholarship fund are tax-deductible. Checks should be sent to Beverly Dyer in the Foundation Office, AD 108, by Monday, Dec. 8. Donors will be listed on the holiday greeting card which will be distributed to all faculty and staff.
Ten faculty members have been awarded affirmative action faculty development grants totalling $18,702 for the current year, announced Dr. J. C. Robinson (Academic Personnel). The purpose of the grants is to help individuals in underrepresented groups with their professional growth. Funds will be used for release time, student assistants, supplies and services and travel.

The recipients and the amount of their awards are:
* Dr. Rafael Correa, assistant professor, Foreign Languages, $2200;
* Dr. Susan M. Finsen, assistant professor, Philosophy, $2100;
* Dr. Darlene Gamboa, assistant professor, Biology, $2272;
* Janice Golojuch, assistant professor, Art, $575;
* Dr. Hope Landrine, assistant professor, Psychology, $2915;
* Dr. Phyllis F. Maxey, assistant professor, Teacher Education, $2100;
* Dr. Nancy Rose, assistant professor, Economics, $2100;
* Dr. Barbara Sirotnik, associate professor, Management Science, $240;
* Dr. Javier Torner, assistant professor, Physics, $2100;
* Dr. Mayo Toruno, assistant professor, Economics, $2100.

Dr. Correa will conduct further research for his book on Carlos Fuentes: History and Memory. Dr. Finsen, coordinator of the critical thinking efforts on this campus, will write a paper on how the methodology of Karl Popper provides a framework for critical thinking. Dr. Gamboa will continue her research into the relationship between neutralizing activity of neonatal basal rabbit sera and resistance to symptomatic infection in preparing a manuscript for publication.

Ms. Golojuch will take a course, "Basic Electronic Field Production", in preparation for teaching a new Art Department class on video camera use and production. Dr. Landrine's grant will be used to have the first few chapters of her book on a new theory of psychopathology typed for submission to an interested publisher. Dr. Maxey will analyze data and write papers on the use of intensive coaching strategies by high school teachers in an effort to improve attitude and achievement by students in math, science, social studies and English.

Dr. Rose proposes to write the first two chapters of a book, The Limits of Welfare Reform: Lessons from the 1930s for the 1980s. Dr. Sirotnik will analyze the political viewpoints expressed by leading television preachers in their public pronouncements, in their religious faith messages through the pulpit and in their publications. Dr. Torner will continue his research concerning the behavior of gluons at high temperatures. Dr. Toruno will organize his research on "Money, Arbitrage and Natural Prices" for a paper to be presented at a professional meeting.

Three faculty members will receive educational equity grants totalling $2250 for work dealing with issues of educational equity. These grants, open to all faculty, also are part of the faculty professional development program.

Dr. Hope Landrine (Psychology) received $596.85 to conduct three empirical investigations to sensitize the public and counselors to the psychologically detrimental effects of the married female sex-role and to culture-based ways of speaking of the poor and the Black poor. She also will work on the preparation of two new courses for the Psychology Department, The Psychology of Race and Social Class and Cross-Cultural Psychology.

Dr. Nabil Razzouk (Marketing, Management Science and Information Management) will have $602.25 for research to prepare benchmark information on how traditional and nontraditional students perceive the effectiveness of a variety of classroom strategies and methods.

Dr. Karen Schepp (Nursing), who received a grant of $1050, seeks to identify factors that influence the recruitment and retention of R.N. minority students in the nursing program here.
Two long-time employees of the university, who are leaving this month, will be honored at farewell activities open to the campus community. Alice Coble, head of operations in the Computer Center, will be retiring after nearly 18 years here. Pat Stumpf, head of the payroll office, is leaving to manage two family businesses.

A luncheon honoring Mrs. Coble will be held Wednesday noon, Dec. 17 at Calypso Charlie's on Kendall Drive. Reservations, at $7.05 per person, should be made with the Computer Center by Dec. 11.

Mrs. Stumpf will be honored at a party from 5 to 6 p.m., Friday, Dec. 12 in the Panorama Room of the Commons. No reservations are needed.

After 21 years as a mother and homemaker, Mrs. Coble returned to work December 1, 1969 when she was hired as a keypunch operator in the fledgling Computer Center. She now is the senior member in years of service. She watched the center grow from accounting machines to the full range of main frame, micro and mini computers which now are available for both instructional and administrative computing. "I've loved the constant change, which is exciting," she said, recalling both the added responsibilities she held and the new equipment which she operated. In retirement, she plans to devote more time to her love of bridge and to her husband, Bob, retirees, they will travel more. Mrs. Coble's last day on campus will be Dec. 19.

Mrs. Stumpf will have spent 15 years and one month in the Payroll Office. When she started work Nov. 1, 1971, she handled student assistant and work-study payrolls, helped with Personnel Office tasks and was a relief telephone switchboard operator. In February 1976, she succeeded Judy Meenan as the head of the department. Later this month, Ms. Meenan will succeed Mrs. Stumpf in the top job. Mrs. Stumpf will be devoting full-time to the operation of two 7-11 Stores, which she and her husband of 22 years, Phill, operate. One is on Kendall Drive and the other in Victorville. Mrs. Stumpf's last day will be Dec. 12; however, she will return at the end of the month to help with the payroll verification and distribution.

A career development program (CDO), designed by the Staff Training and Development Committee, will be available to provide staff with opportunities to learn new skills and gain hands-on experience. Information will be made available soon on the program, which is intended to assist full-time, permanent staff—particularly women and minorities—to prepare for careers in traditionally underrepresented areas.

Specialized workshops and on-campus internships will allow participants selected for the program to enhance their qualifications for career advancement or change.

Quentin Moses, who is spending this year as an administrative fellow at Cal Poly, Pomona, was one of 14 Californians awarded an Education Policy Fellowship to attend a seminar in Washington, D.C., Nov. 19-23. The program is designed to provide participants with a broad view of educational policymaking at the state and national level. He also will attend a leadership forum April 22-25 in Minneapolis and a state policymaking seminar in Sacramento.

Moses, an investigator with the campus Department of Public Safety, has been employed by the university for seven years and also received his bachelor's degree here.
Community Service

Dr. Robert Blackey (History) conducted a workshop for teachers at Hemet High School Dec. 1 on "Writing in the Curriculum".

Dr. Margaret Cooney (Education) was appointed to the Case Service Guidelines Review Committee of the State Department of Rehabilitation.

Dr. James D. Crum (Natural Sciences) discussed "A Trip Along the Nile" at the Nov. 24 dinner meeting of the Clipper Club at the First Congregational Church of San Bernardino.

Dr. Robert Detweiler (Academic Affairs) has been appointed to the Corporate Board of the Center for Provisional Accelerated Learning (PAL Center), a nonprofit organization which seeks to enhance the education of youngsters in the westside of San Bernardino.

Dr. Ernest Garcia (Education) was the keynote speaker at the English as a Second Language conference, sponsored by the Riverside County Office of Education Nov. 20 in Riverside. He discussed "The Second Language Teaching Box Score: Hits, Errors and Strikeouts."

Dr. Mildred Henry (Education) and Cal State students Calvene Malloy and Catherine Hackman appeared on Community Roundtable on radio station KDUO Nov. 30 to discuss community educational issues.

Dr. J. C. Robinson (Academic Personnel) spoke about "U.S.-Latin American Relations" at a luncheon meeting of the Uptown Exchange Club of San Bernardino Nov. 26.

Sgt. Al Sida (Public Safety) spoke to the Optimist Club of San Bernardino about "Home Safety" at the luncheon meeting Nov. 29.

Dr. Lynda Warren (Psychology) lectured on "Time Management" to the Inland County Association of Paralegals Nov. 18 in San Bernardino.

Retirement Interviews

Jan. 8 in Barstow

A retirement officer from the San Bernardino Area Office of the Public Employees Retirement System will be in Barstow Jan. 8 to conduct interviews with employees considering retirement. Appointments for interviews must be made with the PERS Office in San Bernardino, 383-4431. Further information on materials necessary to take to the interview may be secured from the campus Personnel Office, SS 151.

Santa Will Call

Children at Home

Through special arrangements made by the Department of Recreational Sports, Santa Claus will be standing by to telephone the children of Cal State faculty and staff during the week of Dec. 15. However, the jolly old St. Nick must have the information from the parents no later than 4 p.m., Friday, Dec. 12. Forms for relaying the correct information to Santa are available from the Department of Physical Education and the Student Union.

Comedians Wanted

By Student Union

The Student Union is searching for faculty, staff and students interested in participating in the following events: amateur comedians for Comedy Night, pool and foos-ball players for the winter quarter tournaments and lip singers for the Lip Sync Contest. Volunteers should sign up in the Student Union between Dec. 8 and Jan. 14.
Dr. Richard Ackley (National Security Studies) has an article establishing a conceptual framework for a submarine-based strategic defense system titled "SABMIS--Submerged" in the October issue of The Submarine Review.

Dr. Peggy Atwell (Education) will have an article included in Ideas and Insights: Teaching the English Language Arts, K-6, published by the National Council of Teachers of English. She also received word from Kendall/Hunt Publishers that her text, Learning in College: Integrating Information, will be reprinted.

Dr. David Bellis (Public Administration) has an article, "The Great Southern California Auto Mall Wars," published in the October issue of Western City, official journal of the League of California Cities. The paper is based on his research on the effects of intercity competition over new auto malls on local economic development and urban economies.

Dr. Louise Burton (Education) was one of 30 teachers in the nation selected to participate in the Grant Writing Workshop, jointly sponsored by the U.S. Office of Special Education and Rehabilitation, the American Association of Colleges for Teacher Education and the International Council for Exceptional Children Nov. 11-13 in Atlanta, GA.

Linda D. Chaffee (American Culture and Language Program) co-presented a workshop on "The Implementation of Intercultural Communication Using English as a Second Language Students and Communication Students on College/University Campuses" Nov. 15 at the regional conference of the California Association of Teachers of English to Speakers of Other Languages held at Cal State, Northridge.

Dr. Foad Derakhshan (Management) presented two papers at the national meeting of the Decision Science Institute in Honolulu. "Sociopolitical Instability as Determinant of Foreign Direct Investment Profitability in Developing Countries," which appeared in the meeting's proceedings, is a report on research on the relationship between profitability of direct foreign investment and political stability. A business policy case, "Avon Corporation," described the diversification strategy of this cosmetic company. He also has an article, "Managerial Self-Esteem, Self Actualization and Autonomy: A Study of Need Importance and Related Attributes," which will appear in the June 1987 issue of American Business Review.

Dr. Amer El-Ahraf (Academic Resources, Health Science and Human Ecology) conducted the Dean's Seminar on "Cryptosporidiosis: An Emerging Environmental Challenge," Nov. 18 at Loma Linda University.

Dr. Tony Garcia (Bilingual Education Training for Advancement) conducted two inservice training sessions for Title VII program directors Nov. 12-14 at the California ESEA Title VII Management Directors Institute. Theme of the Institute, held in Sacramento, was "Coordination Through Communication." His sessions were "Making Commitment and Capacity Building a Reality" and "Career Ladder Training for Bilingual Aides in School Districts."

Dr. David Lutz (Psychology) has an article, "Clinical Comparability of the Standard MMPI and the MMPI-168," in Professional Psychology: Research and Practice. Co-authors are R. R. Mast, J. W. McNeill and T. G. Adkins.

Work by John Nava (Art) will be included in a group show, "Home for the Holidays," in the Koplin Gallery in Los Angeles Dec. 17-Jan. 17.

Dr. Mendoza Receives $40,000 Software Grant

Dr. Josephine Mendoza (Computer Science) is the recipient of a $40,000 software grant from Prime Computer, Inc., to be used for installing ORACLE on the university's Prime supermini computer.

Dr. Mendoza describes ORACLE, one of the most widely used systems in the computer industry, as a "rational database management system that is based on SQL, the de facto retrieval language for database systems." The program will be used by computer science majors in the classroom and in database courses. "As a long-term goal, the Computer Science Department plans to use ORACLE as an advanced distributed database for classes in the proposed master's degree program," said Dr. Mendoza. "It also will be used for research."

Jim Scanlon (Computer Center) said the Computer Center will be responsible for maintenance and support of the new software. He anticipates the ORACLE package will be installed on the Prime 9750 computer during the winter break.

Congratulations to Dr. Lance Masters (Marketing, Management Science and Information Management) on the completion of his Ph.D. in marketing at the Claremont Graduate School Nov. 25. His dissertation was "Distinctive Competence: Antecedent Control of Strategic Marketing in the Processed Foods Industry."

Professional Activities

Dr. Richard Rowland (Geography) presented a paper, "The Changing Geography of Soviet Nationalities: Recent Trends," at the annual meeting of the American Association for the Advancement of Slavic Studies Nov. 21 in New Orleans.

Dr. Lynda Warren (Psychology) has an article, "The Control of Suicide," published in the American Journal of Orthopsychiatry, Vol. 57, No. 1. Co-author is Carol Tomlinson-Keasey from UCR.

Dr. Mildred Henry (Education) presented a paper, "Halting Dropouts: To Be or Not To Be, There Is No Question," at the 65th annual meeting of the California Educational Research Association Nov. 13 in Marina del Rey.

Sympathy

The university community extends sympathy to Dr. Jack McDonnell (Marketing, Management Science and Information Management) on the death of his mother, Mrs. Betty McDonnell, 79, in Cleveland, Ohio, late in November.

Dr. Scherba Recuperating At Home After Surgery

Dr. Gerald Scherba (Biology, Desert Studies Center) is recuperating at his home in Helendale following triple by-pass surgery. He suffered a heart attack last month and spent time in three hospitals prior to the surgery in Los Angeles. He expects to return to his responsibilities shortly after the first of the year.

All of the people involved in bringing the Bulletin to you join in wishing you a Happy Holiday Season and the very best in the New Year.
