Education Receives Second $1 Million

The Elementary Summer Technology Training Institute, operated within the School of Education, has been refunded for a second year with a $1 million grant from the State Department of Education, announced Dr. Craig Blurton, project director.

The grant, the largest received by the university, will fund two four-week sessions to train more than 200 elementary school teachers and curriculum specialists in methods of effectively integrating microcomputers and other technology into the classroom. Teachers from throughout the state apply to participate. A district must send a team of three, who then take the information back to their colleagues.

The sessions this summer will begin July 6 and Aug. 3. A reunion is scheduled in August for teachers from the initial program last year to join the current participants.

The $998,224 will fund the second phase from this month through June 1988, Blurton said. The two grants overlap for a few months as the initial program is completed. Only three grants were awarded by the State Department of Education this year. The other two went to UC Berkeley and UC Irvine.

Luncheon to Honor Staff Service

Staff members to be recognized for years of service to the university will be honored at a luncheon this year. The new event will be held Friday, Feb. 20 in the Commons.

Special invitations will be sent to the more than 100 staff members being recognized for five, 10, 15 or 20 years of service to the university. Supervisors of the honorees also will be invited to the luncheon, which is being planned by the Staff Training and Development Committee.

President Anthony H. Evans and Vice President Robert Detweiler, the guest speaker, will also be present to express the university’s appreciation to the employees.

In recent years, employee service was recognized at gatherings in the four administrative areas. Earlier, when the university was smaller, the awards were presented at two university-wide meetings.

Winter Enrollment Holds Strong

As of the last day to add classes (Jan. 16), 7490 students had enrolled for the winter quarter. However, Registrar JoAnn Von Wald said there will be losses during the two weeks remaining for dropping classes. The full-time equivalent (FTE) figure for winter, as of last day to add, was 5652.2 students.

Winter quarter 1987 enrollment was 15.18 percent ahead of the same period a year ago. The surge in enrollment felt in the fall quarter is being sustained and is reflected in the winter term increase over a year earlier. The FTE is up 13.66 percent over winter 1986. The traditional drop in student numbers from fall to winter is occurring this year and at about the normal rate, Mrs. Von Wald projects. On the last day to add, the winter head count was 2.92 percent behind the last day to add in the fall quarter.
1987 Pay Schedule

Because of the university's system of dividing the year into nearly equal pay periods (21 or 22 days), the monthly pay day can occur on different days of the month. The pay day schedule prepared by the Payroll Office for 1987 is as follows:

<table>
<thead>
<tr>
<th>Pay Period</th>
<th>Includes dates of</th>
<th>Pay Day</th>
<th>Holidays</th>
</tr>
</thead>
<tbody>
<tr>

Employees may use vacation time, compensatory time off (CTO) or their 1987 personal holiday to cover the day off taken by the university on Jan. 2.

City Water Pressures

The campus water lines have ruptured in several areas during the past several months because of excessive pressure in the lines coming from the city, explains David DeMauro (Plant Operations). The city main which normally supplies water to the campus has been shut down for repairs and the alternate line provided widely fluctuating and surging pressures. The main line has not yet been repaired by the city.

In one instance, a ruptured campus line flooded the utility tunnel. Electrical cables were under water and it was feared electrical power would have to be cut off. However, campus crews were able to repair the damage with minimum inconvenience to the university. The Commons was forced to serve cold meals temporarily while the hot water line was down and three buildings were without water over the weekend.

A Friday night break in an eight-inch line resulted in flooding in the Student Union. A third break several days later occurred in the 12-inch line near the Animal House. Lack of water pressure in restrooms was evident throughout the campus.

DeMauro paid tribute to the campus crews who were called out after hours and worked under cold, dark, windy conditions to restore service. The situation in the tunnel, with electrical cables under water, was potentially precarious but was successfully repaired by the men.

Recreational Sports

The Recreational Sports Department (formerly Intramural Sports) will hold an open house in its new quarters from 10 a.m. to 6 p.m., Tuesday, Jan. 27. The office for the department, headed by Joe Long, is now in Room 119 of Morongo House in Serrano Village. Refreshments and door prizes will be provided during open house.
Randy Harrell Named Student Life Director

Randy Harrell, who has six years of experience in student work, is the new director of student life, effective Jan. 20, Dean of Students Peter Wilson announced.

Harrell was associate director of university activities and coordinator of academic appeals at Cal State, Fullerton since 1984. Earlier he had been activities coordinator there from 1981 to 1984. His professional experience began at Azusa Pacific College, where he was learning center program coordinator and an admissions counselor.

In his work at Fullerton, he has directed an activities program with 180 clubs, 16 fraternities and sororities, special events and campus-wide programming. He planned the new student orientation program and provided leadership skills training for the Associated Students.

Harrell earned his B.A. in religion/Biblical literature and his M.A. in student development from Azusa Pacific College. He had been student body president and was named to Who's Who Among Students in American Colleges and Universities.

"We are pleased to have Randy join our staff," said Dean Wilson. "He has an excellent background in student development."

Benefit Dance Set for Jan. 31

The Black Faculty and Staff Association is sponsoring a benefit dance to raise scholarship funds for black students Saturday evening, Jan. 31 in the Commons. Music, by "Nitelife," will be a mixture of rock, soul, blues and jazz.

Tickets will be available at the door or from Cita Jones (Financial Aid), president of the association, or Esther Williams (Payroll). Admission is $15 per person.

Health Center Provides Program on AIDS

Any staff or faculty member who would like an educational presentation on AIDS for their office or class is invited to contact the Health Center, said Dr. James R. Savage, director. The session runs from 30 to 60 minutes.

An open session will be held from 12:30 to 1:30 p.m., Thursday, Feb. 5 in the SUMP. Following a film, medical staff will be available to answer questions.

New Building Still In Governor's Budget

Planning funds for the new $17.5 million classroom/faculty office/student services building still are in Governor Deukmejian's 1987-88 budget. The budget is under review by the Department of Finance and the Legislature.

The $861,000 in the budget would fund the drafting of blueprints for a 130,028-square-foot structure. The building, scheduled for construction by 1990, would provide 147 faculty offices, 26 classrooms and 14 laboratories for communication, industrial technology and computer science. It will be located between the Student Union and the front end of the campus.

The university, which has been exceeding student enrollment projections for the last three years, is expected to have an enrollment of 10,000 by 1990, said Vice President Robert Detweiler (Academic Affairs). The building would enable the campus to accommodate an additional 2500 students.
TruSTGS

ApprovG The CSU Board of Trustees, at its meeting last week, approved the location of four temporary classroom structures on the San Bernardino campus. In order to take this action, the board exempted the campus from a 1972 moratorium on the leasing of temporary facilities.

The four structures, to be ready for next fall, will be installed behind the Pfau Library and east of the Biological Sciences Building. The 3840 square feet of classroom space will accommodate up to 552 full-time equivalent students.

The buildings will be leased for three years, at a cost estimated at $95,000 a year. They must be removed when the new classroom/faculty office/student services building is completed in 1990.

Congratulations The university community extends congratulations to two faculty members who were married during the holiday recess.

Dr. Renate Nummela (Education) and Geoffrey Caine were married Dec. 28 in Reno, Nev. The couple will make its home in San Bernardino. The bridegroom is a native of Australia. The bride will use as her professional name Dr. Renata Nummela Caine.

Dr. Kent Schofield (History) and Dr. Roberta Stathis-Ochoa were married Dec. 30 in Oakland. They are making their home in San Bernardino. The bride, a Cal State, San Bernardino graduate, is an administrator at Cal Poly, Pomona.

Psychology Receives Grant for Internship Southern California Edison Company has awarded the Psychology Department, through Dr. Robert Cramer, a $10,000 grant to fund an internship with a graduate student.

Ryan Cherland, a master's candidate in the industrial organization track, will do a two-quarter internship and then will be employed by the utility in the summer. He will do a job analysis, evaluating Edison's internal program for customer service and its job placement of personnel. Dr. Cramer is his on-campus supervisor.

According to Dr. Cramer, Edison had sought a doctoral intern for its program but when the right individual was not available, the company turned to Cal State's master's program. He hopes the internship can be on-going.

Music Department Offers Saturday Academy for Youth A Saturday Academy of Music, for youngsters in grades four through six, is being offered by the Music Department. Applications still are being accepted through tomorrow, Jan. 24, said Dr. Arthur Moorefield.

Parents should bring their children to the Music Department tomorrow if they wish to participate in the program, which runs through Feb. 28. Tuition is $40.

Group lessons will be given in woodwinds, brass, strings and piano. Students also will be enrolled in chorus, band or orchestra. The program runs from 9 a.m. to 12:05 p.m. Twenty-one students currently are enrolled.
Professional Activities

Dr. Amer El-Ahraf (Health Science, Academic Resources) has been appointed to a state-wide committee to review current qualifications and then develop a new examination for certification of environmental health professionals in California.

Dr. Ted McDowell (Geography) served on a six-member Advisory Panel of the National Science Foundation's College Science Instrumentation Program (CSIP) for the Earth Sciences. The panel, which met Jan. 14-17 in Washington, D.C., made recommendations about grant proposals submitted to the NSF (through the CSIP) for funding in 1987.

John Nava (Art) is one of 53 artists with paintings in a national show which opened Jan. 21 at One Penn Plaza in New York City. The exhibition, "Movietime Muse: Art Influenced by Film," will be up through May 8.

Mary Anne Schultz (Nursing) received certification as a medical/surgical nurse and as a certified nursing administrator from the American Nurses Association. The certification, for the 1987-1991 period, entitles her to use the initials C., C.N.A. after her academic degree.

Dr. Alexander Sokoloff (Biology) and Dr. Daryl Faustini, who received his M.S. in biology here, have an article, "Dachs, a mutant in Tribolium with effects analogous to the mutant engrailed in Drosophila," accepted for publication in the January/February issue of the Journal of Heredity.

A composition by Dr. Raymond Torres-Santos (Music), "Areytos: a Symphonic Picture" for orchestra and computer-generated sound, has been selected to be performed by the Northwestern University Symphony Orchestra April 10 at the 22nd national convention of the American Association of University Composers.

Community Service

Dr. Frances S. Coles (Criminal Justice) gave a talk on "Sexual Harrassment in the Workplace" to the Fontana Branch of the American Association of University Women Jan. 12.

Dr. Robert Detweiler (Academic Affairs) has been named vice chairman of the Arrowhead District Committee of the Inland Empire Council of Boy Scouts of America.

Dr. Ted McDowell (Geography) spoke to the Riverside Museum Associates Jan. 7 about "San Bernardino's Groundwater Controversy (and Other Southern California Water Issues)."

Arthur Nelson (Library) has been appointed by Mayor Evlyn Wilcox to the San Bernardino Committee for the Bicentennial of the American Constitution.

Fulbright Scholar To Lecture Here

Dr. Maher El-Shinnawi, a visiting Fulbright scholar at UC Riverside, will speak to various biology classes on "Soil and the Environment" Monday, Feb. 2. His visit is part of the Fulbright Scholar Lecture Series arranged by the Intellectual Life Committee. Information on times and places of the lectures is available from the Biology Department, Ext. 7353.
Sympathy

The university community extends deepest sympathy to Ruth Moran (Media Relations) on the death of her husband, W. E. (Gene) Moran, Jan. 17 following a brief hospitalization. Memorial services were held Jan. 20 in Yucaipa.

Dr. Lenz

Dr. Margaret Lenz (Education) is in the critical care unit of Tustin Health Care Medical Center. She suffered a heart attack at her home Jan. 20. No visitors are permitted.

Personnel

NEW TO THE UNIVERSITY

Full-time

Randy Harrell
Director
Student Life
Ext. 7407, SS 122

Part-time, temporary to November 30, 1987

Lynn Rudloff
Clerical Assistant IIIA
Athletics
Ext. 7560, PE 122

Employment Opportunities

Applications will be accepted from 2 p.m., today for new positions until 2 p.m. on the dates listed. Current information on employment opportunities is available through a 24-hour hotline at Ext. 7762, which is updated at 2 p.m., Friday.
