1990 Building Hinges on Bond Issue

Three Cal State, San Bernardino building projects, including the new classroom/office building, are affected by Proposition 78 on the Nov. 8 ballot.

Funding for construction of the $17 million classroom/student services/faculty office building will come from the bond issue.

The state and the CSU have no contingency plans for launching the building, said Leonard Farwell, vice president for administration and finance.

Known as the 1990 building, because of its anticipated occupancy date, the four-story facility would provide 147 faculty offices, 26 classrooms and 14 state-of-the-art laboratories for communication, industrial technology and computer science classes. The 130,000-square-foot building would accommodate nearly 2500 additional students at a time when the university's enrollment will exceed 10,000.

Also affected by the bond issue is funding for the planning and working drawings for the School of Business and Public Administration/Computer Science/Math Building and a major addition to the Pfau Library Building. These projects have been approved by the Chancellor's Office for presentation to the Legislature. If they are approved at that level, the funding would come from the bond issue.

Securing financing for the first step, the planning and working drawings, is a major key in getting projects launched, Farwell explained.

Proposition 78 is a $600 million general obligation bond measure to fund construction and renovation projects at California's public universities during the next two years. Nearly 50 projects for the CSU are tied up in the bond issue.

The measure, the Public Higher Education Bond Act of 1988, has been endorsed by the CSU Board of Trustees, Governor Deukmejian, Senators Alan Cranston and Pete Wilson and Bill Honig, state superintendent of public instruction.

Because of the decrease in tideland oil revenues, long a source of funds for public higher education in the state, Deukmejian and the Legislature authorized the bond issue. Proposition 78 is seen as an alternative means of supporting improvements on many of the state's 135 campuses and providing the progress in technology that is demanded by the state's 1.5 million students.

The last day to register to vote in the general election is Tuesday, Oct. 11. Campus employees or students who have not yet registered may secure registration papers from the Personnel Office, SS 151.

"Our students certainly have a stake in the future of the new facilities," said Dr. Judith M. Rymer, executive dean for university relations.

"Although the November ballot is one of the longest in the state's history, we hope students and employees will give special attention to the first of the measures, Proposition 78, because it has a direct impact on their future studying and working conditions."

Records Shattered, Enrollment Soars To Nearly 10,000 Students

Although the figure will drop by census day, nearly 10,000 students registered for classes here this fall.

The university was projected to reach the 10,000-enrollment mark in 1991-92.

Statistics from Registrar JoAnn Von Wald showed 9978 students registered on the last day to add classes (Sept. 28). The figures represent an increase of 1387 students, or 16.4 percent, over the same day in fall 1987.

On the basis of past trends, Mrs. Von Wald projects the fall census day enrollment figure to be 9706 students. The university had expected 9300.

The fall figures also reflect a 17.5 percent increase in the full-time equivalent count, which is the budgeting formula that converts student course loads into full-time proportions.

The university student body has grown 60 percent in the past five years as the result of an aggressive recruitment program begun in 1983, Mrs. Von Wald said.

Rehabilitation Counseling Program Accredited

The university now has its fourth accredited program, with the accreditation of the M.A. in rehabilitation counseling by the Council on Rehabilitation Education.

Dr. Margaret Cooney (Education) coordinates the program, which is designed to prepare students to work with
disabled people in public and private rehabilitation agencies, hospitals, industry and related fields.

The two-year program trains students in rehabilitation counseling, vocational evaluation and job placement of disabled persons. "This is a new and dynamic field in the mental health and allied health professions," said Dr. Cooney, who was instrumental in developing the program.

"A rehabilitation counselor helps disabled persons to achieve their optimal social, psychological and vocational potential. The final goal, wherever possible, is job placement," she explained.

"The program has only been in existence two years and it is unusual to be accredited so rapidly," said Dr. Jerrold Pritchard, associate vice president for academic programs. He called the recognition "a tribute to the quality of the program and the work put into it."

"This latest accreditation is part of a general effort to receive national recognition or accreditation for programs where a national accrediting body exists," Dr. Pritchard explained.

The university also has accredited programs in art (National Association of Schools of Art and Design), chemistry (American Chemical Society) and nursing (American League for Nursing).

Next in line to seek accreditation are programs in public administration, computer science, nutrition and social work, Dr. Pritchard said.

$225,000 Grant to Aid Teachers of Disabled

The university has received a $225,000 grant from the U.S. Department of Education to train teachers of the learning handicapped in the high desert.

Dr. Louise Burton (Education) will direct the three-year training program, known as the High Desert Rural Project.

Designed to upgrade the skills of 60 teachers of the learning or severely handicapped, the program will focus on the Victorville, Barstow and Apple Valley areas.

Thirty percent of the 137 special education teachers in the high desert are on one-year, nonrenewable emergency credentials, Dr. Burton explained. "They need training immediately to keep their positions."

"There is no reasonably available credential program for teachers who live and teach in the high desert," she said.

The first annual installment of $74,976 is being matched by $28,000 from the university. The funds will establish a computer networking system to provide teachers with up-to-date information on special education. Five field-work sites will be developed to give practical work experience and to serve as models for more than 20 school districts in the region.

Drs. Joanne Eichinger and Patricia Tefft Cousin (also Education) will assist Dr. Burton in setting up the field-work sites.

Former Governor Edmund G. Brown Sr., who was the state's top executive when the San Bernardino campus was founded, will speak on campus Thursday evening, Oct. 13.

The lecture, to begin at 8 p.m. in the Upper Commons, will focus on "California: the Year 2000."

Brown, 83, served as governor from 1959 to 1967. Currently a senior partner in a Los Angeles law firm, he specializes in international and business law.

He was instrumental in the implementation of the Master Plan for Higher Education and the California Water Project. He also has written two books.

Brown will receive a $500 honorarium. The Intellectual Life and Visiting Scholars Committee is sponsoring the visit.

Athletic Director Search Reopened

A nationwide search for a new, full-time manager of intercollegiate athletics reopened this week.

President Anthony H. Evans also announced the new AD will report to the executive dean for university relations, Dr. Judith M. Rymer. When the position was upgraded to full time last fall, it was reassigned from the School of Natural Sciences to the Office of the President.

Since then Dr. Evans has determined that the position would be more appropriate and effective in the University Relations Division, which oversees external affairs and community relations for the institution.

"At the beginning of the first search I made it clear to the committee that we were looking for candidates who could advance and promote our young sports program in the community," he said. "Since the intercollegiate athletics program is important to the reputation and stature of the university, I have decided to realign the position within the University Relations Division."

President Evans hopes the new athletic director will be appointed by April 1.

The same search committee, chaired by Dr. Rymer, will serve again. The first search attracted 109 applicants, with seven interviewed on campus.

Margaret Lynam Retires After 16 Years

Callers to the Purchasing Office will no longer hear the distinctive, throaty greeting, "Purchasing, Margaret speaking."

Margaret Lynam retired Sept. 30, after 16 years of helping campus
CV Center Continues Steady Growth

More than 500 students enrolled this fall at the Coachella Valley Center, the university's satellite campus in Palm Desert, reports Dr. Catherine Gannon, director.

With its enrollment more than doubled in two years (from 243 in 1986 to 543 this fall), the center has expanded its daytime schedule, offered classes in new areas and instituted a Saturday morning class.

The center established an Apple computer lab where future teachers may attain the computer literacy required by the state, Dr. Gannon said. The university also has an agreement with College of the Desert to provide open lab time for the Cal State students.

Blood Drive Here Oct. 13

A blood drive will be held on campus Wednesday, Oct. 19 from 10:30 a.m. until 3:30 p.m.

Donors may go to two locations. The Bloodmobile will be in front of the Library. Representatives of the San Bernardino-Riverside Blood Bank also will be in the lobby of the Health Center.

Free cholesterol testing will be done for all donors. The Associated Students will donate $10 cash prizes to be awarded by a drawing at the end of the drive.

The drive will replenish supplies in the campus blood reserve fund, which is available to all campus members and their immediate dependents.

Cal State Associates Host Mini-Fest

Taste-tempting, homemade treats and an opportunity to meet colleagues are offered by the Cal State Associates at their October TGIF mini-fest Friday, Oct. 14.

All faculty and staff are invited to participate, from 4 to 6:30 p.m. in the Panorama Room, said President Maria Lootens (Audiovisual).

The Cal State Associates is an organization of faculty, staff, administrators and retirees. Its purpose is to provide educational and social activities for members and support for the university.

Officers for 1988-89, in addition to Mrs. Lootens, are: Mary Lou Freischlag, vice president for programs; Denise Benton (Upward Bound), vice president for membership; Susan Detweiler, secretary; Beverly Dyer (Foundation), treasurer; Linda Pederson, newsletter editor. Lois (Mrs. Anthony) Evans is an honorary board member.

Dues for a family membership in the Cal State Associates are $10. Checks may be sent to Mrs. Dyer at the Foundation Office, SS 130.

Congratulations to Mary Anne Schultz (Nursing) and her husband, Dr. Carl Schultz, on the birth of their first child, a daughter, Deanna Renee, Aug. 8. Born on the “luckiest day of the century” (8-8-88), she weighed 7 pounds 10 ounces.

...to Melody Neill (Personnel) and her husband, Bill, on the birth of their son, Brandon Michael, Aug. 24. The 7 pound 13 1/2 ounce baby has an older sister, Jonagene.

...to Bill Warehall (Art) and his wife, Dr. Kathryn Warehall, on the birth of their first child, a daughter, Elle Laurn, on Sept. 12. The baby, who weighed 7 pounds 12 3/4 ounces, has an older brother, Eric Ryder.

Contacts Begin For Annual Fund Drive

The president's conference room will undergo transformations into a mail room and a telephone center as the university's annual fund drive swings into gear.

For the second year, students will phone alumni to seek their financial support of Cal State's programs and projects. More than 700 alumni responded enthusiastically last year, pledging nearly $50,000 to the annual fund, reports Pamela Langford (Development). The goal for the alumni phon-a-thon this year is $70,000.
Seminars Set For Front-Line Personnel

University personnel who deal with the public are the target for two-hour seminars offered by the Personnel Office this month.

A workshop on “Customer Service” will be offered at 1:30 p.m., Tuesday, Oct. 18 and 10 a.m., Tuesday, Oct. 25. “Telephone Skills” is the topic of the training offered at 2 p.m., Thursday, Oct. 27 and 1:30 p.m., Friday, Nov. 11.

Other offerings during October include:

- “Managing Meetings,” 12 to 12:45 p.m., Oct. 19, offered by Dr. David O. Stine (Education);
- “Performance Evaluation and Documentation,” 1:30-3:30 p.m., Thursday, Oct. 20;
- “Sexual Harassment,” 10 a.m.-noon, Wednesday, Oct. 26, conducted by Dr. Martha Kazlo (Counseling and Testing Center) and Randy Harrell (Student Life);
- “Psychological Aspects of Safety,” noon to 1:30 p.m., Friday, Oct. 28, offered by Dr. Thomas Timmreck (Health Science and Human Ecology); and
- “Job Burnout and Stress Management,” 9-11 a.m., Oct. 31, presented by Dr. Morley Glicken (Social Work).

Employees interested in any of the workshops should register at the Personnel Office, said Dee Thomas.

Dependent Care Open Enrollment

The deadline for enrolling in a new dependent care reimbursement program is Oct. 31, reminds Marjorie Callaghan (Personnel).

All faculty, executive, management, supervisory and confidential employees are eligible for the coverage. Unlike other benefits programs, the dependent care plan requires reenrollment every year even if an employee wishes to continue the same contribution amount.

“The advantage of the DCA is that it allows you to pay for necessary dependent care (for adults or children) on a pre-tax basis. However, the IRS has a ‘use it or lose it’ rule which makes proper planning critical,” explained Ms. Callaghan.

Informational packets were sent to employees eligible to participate. Anyone needing a packet for additional information should call Personnel, Ext. 7205.

Papers must be returned to Personnel by Oct. 31 for an effective date of Jan. 1, 1989. All new eligible employees, or persons returning from leave of absence, must enroll within 60 days.

Campus Receives Award

The campus’ improved lighting and energy management systems have resulted in an award from the Southern California Edison Co.

Emil Hutchins, eastern division regional affairs manager, presented President Anthony Evans with the award for outstanding achievement in the management of electrical energy. Electrical consumption on campus has been reduced by 37 percent per student since 1980.

President Evans commended David DeMauro (Plant Operations) and Leroy Wilke (Heating and Air-conditioning) for their leadership in this area.

News Briefs

The open enrollment period for changing medical or dental plans, adding new coverage or dependents ends Oct. 14, reminds Personnel.

All new faculty who have not enrolled in medical, dental or vision plans have 60 days from the date of employment to do so, said Marjorie Callaghan (Personnel).

Campus co-chairs for the current Arrowhead United Way campaign are Dr. James D. Crum (Natural Sciences) and Art Butler (Administrative Services), President Evans announced.

“Your generous contribution will directly support numerous programs aiding those members of our community most in need,” said the president in urging support of the campaign. The campus goal is $11,000.

A four-hour, satellite-distributed symposium on artificial intelligence will be aired in Audiovisual Services Nov. 10, Dr. Robert Senour announced. The free symposium, scheduled for 8 a.m. to noon, will review cases histories and interview leading authorities in artificial intelligence including Dr. Edward Feigenbaum of Stanford, co-author of The Fifth Generation: AI and Japan’s Computer Challenge to the World.

For information call Dr. Senour, Ext. 7296.

Would you like to learn more about a foreign country and its people without the expense of traveling there?

Jeanne Hogenson, international student advisor,
Langford said.

Letters also will be on the way to all faculty and staff encouraging their support of the campaign to supplement the university’s resources. Last year more than 150 employees contributed to the annual fund through direct gifts or payroll deductions.

Contributions to the annual fund have helped to strengthen a variety of programs including student recruitment, library resources, guest speakers and student scholarships, Ms. Pringle said.

Campus employees serving on the 1988-89 annual fund committee include Mary Colacurcio (Alumni), Dr. Lance Masters (Marketing), Pola Patterson (Library), David Pavao (Theatre Arts), Cynthia Pringle (Media Relations), Dr. Judith M. Rymer (University Relations) and Eugenia Villamarin (Academic Programs). Ms. Langford is chair of the committee.

Community Service

Dr. Russell Barber (Anthropology) discussed the Fairview School excavation at a Sept. 18 meeting of The Galleons, a social group from the Presbyterian Church of San Bernardino.

Dr. Chuck Christie (Public Administration) spoke to the June 16 graduating class of San Bernardino High School and awarded diplomas (as a member of the Board of Education).

Dr. Sandra Cross (Health Science and Human Ecology) spoke on “Chemical Dependency: Its Impact on the Family” to Parents Without Partners Sept. 21 in Colton.

Dr. G. Keith Dolan (Education) discussed “Famous Sports Figures” for a fifth grade class at Maple Elementary School in Fontana Sept. 29.

Dr. Loren Filbeck (Music) was elected president of the San Bernardino-Tachikawa Sister City Committee for 1988-89. The Japanese city traditionally sends a contingent of its young people to visit in San Bernardino during the summer.

Janice Golojuch (Art) will have a show of “Figurative Photographs” opening Oct. 16 in the Peppers Art Gallery at the University of Redlands. The show will be up through Nov. 12. Gallery hours are noon to 4 p.m., Tuesday through Friday and 2 to 5 p.m., Saturday and Sunday. An opening reception will be 3 to 5 p.m., Sunday, Oct. 16.

Dr. Juan Gonzalez (President’s Office) and Vicki Estelle (Cal-SOAP) made a presentation on “Progress in the Development of the Cal-SOAP Project” to the Kiwanis Club of Greater San Bernardino Sept. 27.

Dr. Theodore McDowell (Geography) spoke on “Environmental Studies: Protecting the Future of Life on Earth” on the Chaffee College Student Activities Lecture Series Oct. 3.

Carolyn Martin (Physical Education) spoke to the Uptown Exchange Club of San Bernardino Sept. 21 and to 11th and 12th grade psychology classes at Redlands High School Sept. 29. Her topic for both was “The Psychological Aspect of Sports.”

Dr. Tom Pierce (Economics) has been appointed to San Bernardino Mayor Evlyn Wilcox’s 21st Century Charter Review Committee, a nine-member group whose basic purpose is to review the existing city charter and recommend ways in which it might be revised to allow city government to operate most efficiently.

Dr. David Porter (Business and Public Administration) spoke to the San Bernardino Community College District board and administrators at their Oct. 1 retreat. He discussed the impact of the area’s growth on higher education.

Dr. Reginald Price (Intercollegiate Athletics) spoke to Banning High School students on “A Brief Look at China.”

Mary Anne Schultz (Nursing) is on a subcommittee of the California Nurses Association Region IV which met Aug. 26 to address advanced nursing practices. She also serves on the government relations committee and assisted with a presentation to Representative George Brown.

Dr. Thomas Timmreck (Health Science and Human Ecology) spoke to the Riverside High 12 Club Sept. 30 on “Stress and Aging.”

Employment Opportunities

Current job vacancies can be seen on Channel 3, the community access channel in San Bernardino. Information also is available on a 24-hour hotline at Ext. 7762, which is updated at 2 p.m., Fridays.

Applications will be accepted until 2 p.m. on the dates listed.

Various Departments: Clerical Assistant IIA–$7.99-$9.42/hr., and Clerical Assistant IIB (shorthand or dictaphone)–$8.42-$9.94/hr.; on-call, temporary 30-day positions. Open indefinitely.

Calendar

October

through Friday, Nov. 4

Friday, Oct. 7
Men's Soccer: UC San Diego, 3 p.m.

Wednesday, Oct. 12
Water Polo: Pomona-Pitzer, 4 p.m.

Friday, Oct. 14
Women's Junior Varsity Volleyball: Taft College, 4:30 p.m.; Long Beach Community College, 7 p.m.

Saturday, Oct. 15
Cross Country: Cal Tech, Whittier and Master's Colleges, 9 a.m.

Wednesday, Oct. 19
Volleyball: University of La Verne, 7:30 p.m.
Water Polo: Cal State, Los Angeles, 4 p.m.

Open Recreation
(sponsored by Recreational Sports Department)

Swimming pool: 11:30 a.m.-1:30 p.m., Monday-Wednesday-Friday; 8-10 a.m., Tuesday-Thursday; noon-4 p.m., Saturday-Sunday.

Gym: noon-4 p.m., Saturday and Sunday

Tennis courts: 4-9 p.m., Sunday.
