Facilities Expansion Geared to Meet Growing University Needs of the 1990s

The 1990s will constitute a "construction boom era" for Cal State, provided that California voters approve future bond issues for capital outlay projects. Virtually one new building or facility expansion project is planned for each year well into the new decade.

By late May, construction is anticipated to begin on a major classroom/student services/faculty office complex. The $19.9 million project will accommodate nearly 2,500 students in 26 lecture halls and will house 14 laboratories for communication, journalism, radio/television, computer science and industrial technology classes. The building will be located in the foreground of the campus near the Student Union Building.

During the last week of February, three general contractors submitted bids on the project. Since the lowest bid of $15,997,000 was 9.4 percent above the approved construction budget, the campus has submitted a budget augmentation request to the state’s Public Work Board. According to William F. Shum, director of Physical Planning & Development, "We anticipate no problem in the approval of the budget augmentation request since our request is below the 10 percent limit." The board will review this request on March 30. If the request is approved, groundbreaking ceremonies should occur within approximately 60 days of that date.

Next fall, construction is expected to begin on the expansion of the existing Student Union Building. Schematic drawings are currently being drafted by the architect and will probably be completed by May 1990. The project, with an estimated cost of $4.5 million, will be funded by a bond sale conducted through the Auxiliary and Business Services Office of the CSU Chancellor’s Office.

Expansion of the Student Union Building will more than double the size of the existing structure and will provide additional food service, lounges, meeting rooms, retail shops, a large multipurpose room and amenities needed to make the facility truly a campus center. Occupancy is anticipated by spring, 1992.

In 1991, the university plans to begin construction on a new Business Administration and Information Sciences Building. This $24.5 million facility will provide 169 offices for business, computer science and mathematics faculty and classroom space for more than 2,100 students. Plans also include a management center for which corporate and individual gifts will be sought. This new facility will be located north of the Serrano Village area and east of the Health Center. Funding for this project will be secured through revenue bond sales and is not contingent upon the passage of the Higher Education Facilities Bond Act of 1990, which will appear on the June 5 California ballot.

A major expansion and renovation of the John M. Pfau Library is slated to begin in early 1992. This $24.6 million project is targeted for completion by the fall of 1993, providing passage of the facilities bond initiative on the June ballot. A five-story addition will be constructed west of the existing library building and will be attached to about 40 percent of the present structure. The addition of 121,239 square feet plus the existing library building will double the size of the Pfau Library. Geared to house the expanded functions of the library, computer center and audio-visual department, the proposed

(continued on page 2)
Since the library has served as a focal point on campus since its construction in 1970, the architectural design of the addition was given special consideration by architects, Rosetti & Associates. Once completed, the two buildings will appear as one structure. Plans also call for the construction of a landscaped park-like mall in the front of the library where a variety of campus events can be held.

In addition to the aforementioned projects, a long-range plan on the drawing board includes a major remodeling and expansion of the Physical Education Building. This project will include a gymnasium with 5,000 seating capacity, locker rooms, training facilities and racquetball and handball courts. Specialized labs and classrooms also will accommodate the nursing program and ROTC personnel. The $24.4 million project also would add outdoor facilities, such as a track and field complex, a baseball field, and tennis, baseball and volleyball courts.

Finally, the construction of a new Visual Arts Building is among the university’s long-range facilities plans. This new structure, with an estimated cost of $16.7 million, will house the university Art Gallery and include classrooms and laboratories for instruction in art, photography and related courses.

As our campus continues to grow, facilities expansion is vital as we strive to meet the increasing educational needs of the region. And if voters approve the upcoming Higher Education Facilities Bond Act this June, the 1990s will certainly be a “construction boom era” for Cal State.

Lecture Explores Christian and Jewish Relations

The third annual Morrow-McCombs Memorial Lecture will be presented at 7:30 p.m. Tuesday, March 27, in the Recital Hall of the Creative Arts Building. This year’s keynote lecturer is Dr. Eugene J. Fisher, executive secretary of the Secretariat for Catholic-Jewish Relations of the National Conference of Catholic Bishops in Washington D.C. He will address “Christian and Jewish Relations: The Third Millennium.”

Made possible through a special endowment in memory of Lilian Morrow of Beverly Hills and her close friend Ray Roy McCombs of Rialto, the Morrow-McCombs Memorial Lecture is a distinguished lectureship designed to enhance and promote interfaith understanding between Christians and Jews. Fisher’s presentation is free and open to the public. A reception will follow. The event is being coordinated by Cal State’s Office of Extended Education.

Task Force on Campus Safety Created

President Anthony H. Evans has chartered a Task Force on Campus Safety designed to review issues impacting on public safety as they relate to the campus community. The task force was charged with presenting a comprehensive look at the current state of campus safety and to outline a number of opportunities and options for coping with the issue of campus crime.

The task force broke the complex issue into a number of components and assigned subcommittees to examine each. For example, the Subcommittee on Campus Environment focused on eight primary areas of concern. These included: lighting, foliage, campus publications, escort services, parking lots, special programs and building design.

An executive summary drafted by the task force is available to members of the campus community through all divisional vice presidents. Now that the summary has been completed, President Evans has asked for comment from key administrators. "The underlying theme (of the report) points out that campus safety is a university-wide responsibility and requires more education," he said. He has asked the vice presidents to identify areas of the document that fall within their divisions and to begin immediately to prepare an action plan in response to the summary. Progress regarding the implementation of these suggestions will be published in upcoming issues of the Friday Bulletin.

The task force is chaired by Johnnie Ann Ralph (Library). Other members of the committee include: Art Butler (Administrative Services), Juan Gonzalez (President’s Office), Paul Granillo (Student Representative), Randy Harrell (Student Life), Rozanne Hug (Student Representative), Martha Kazlo (Community Counseling Center), Stephanie Keyes (Personnel), Rima Said (ASI), Geraldine Stahly (Psychology), Aaron Watson (ASI), Frank Williams (Criminal Justice) and Kofi Winfry (Student Representative).
Candidates To Visit Campus

Finalists in the search to fill the position of vice president for academic affairs will visit campus next week. Open forums have been scheduled to provide members of the university community the opportunity to meet the applicants. Finalists and scheduled forums are as follows:

<table>
<thead>
<tr>
<th>Candidate</th>
<th>Schedule</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dr. Amer El-Ahraf</td>
<td>Mon., March 26</td>

Two other finalists already have been interviewed. They include: Dr. Ray C. Shiflett, Dean, College of Science, California State Polytechnic University, Pomona, who was here on Monday; and Dr. Margaret O. Lucas, Dean, College of Creative Arts, West Virginia University, who visited the campus Tuesday.

Students Defeat Fee Referendum

The referendum to increase student fees by $14, with $8 earmarked for athletic scholarships and $6 for Associated Student activities, was defeated by the student body last week. The election was tied at 353 votes here on campus; the vote against the raise at the Coachella Valley Center campus was 59-9.

Based on current enrollment of 10,485 students, the election cost the Athletics Department about $80,000 worth of scholarship funds per year — funds which would assist the department in its move to NCAA Division II competition beginning in the fall of 1991.

"It was a tough blow for us," said David Suenram (Athletics) who directs the intercollegiate athletic program. "It's a little hard to swallow because it's so important to us. It's something, that when you're planning for different instances, I had to plan that this might not pass." He noted that the lack of student fees does not change the planned move up to Division III.

Vice President Judith Rymer (University Relations) said, "The university remains committed to provide the widest possible range of activities and experiences for students both in and out of the classroom. The defeat of the fee referendum simply means that we will need to be a little more creative and resourceful in accomplishing our goals."

Suenram plans to ask for another referendum as "early as next fall." He said, "I think we were so close this time. But it means extra effort in the community until we get something like this passed. And it puts pressure on each sport to do a little fund raiser just for their sport. We'll just have to encourage our sports to look for ways to generate funds on their own. But it's easier said than done a lot of times."

ASI president Aaron Watson said even though the turnout of voters was a little better than seven percent of the total student population, it was a fair assessment of what the students wanted. "I think the students on this campus as well as Coachella Valley didn't feel now is time to increase their student fees," he said. "I think it was the whole question (of raising fees), not necessarily the amount."
Acting Biology Chair Announces Retirement

Dr. Alexander Sokoloff, acting chair of the Biology Department and professor of biology, recently announced his retirement from Cal State effective August, 1990. Since joining the university in 1965, he has obtained several grants for his genetic research on the flour beetle, which infests much of the world's stored cereal supplies. Sokoloff has lectured and published extensively on the subject and is considered a leading authority on the genetics of beetles.

Commenting on the growth of the Biology Department, Sokoloff said, "We started out with two faculty members - one botanist and one zoologist. Today we have eight faculty members with plans to add two more. Over the years we have started several new programs for our students. We now have a molecular biology program, and we have plans for a genetic engineering program in the near future. This is a teaching institution, and we strive to do our best to prepare students for the future."

As a professor emeritus, Sokoloff hopes to teach part-time and continue his research at Cal State. Other retirement plans include international travel. "There are four corners in the world and they are all appealing to me," he said. "Perhaps to start, it would be interesting to visit Egypt and the cradle of civilization." He is interested also in attending the 1992 International Congress of Entomology to be held in China.

Sokoloff will continue to serve as editor of the Tribolium Information Bulletin, a nationwide newsletter covering flour beetle research which contains material from colleagues throughout the world. He also plans to write a revision of his 1966 book "The Genetics of Tribolium and Related Species."

Commenting on his years at Cal State, Sokoloff stated, "It gave me an opportunity to teach and do research. As a result, I was elected as a Fellow of the Royal Entomological Society of London in 1989."

"Ethel" Receives Special Commendation

"Ethel," the Theater Arts Department's hit musical featuring student Val Limar in her one-woman show, has been given special commendation by the American College Theater Festival national selection team.

Chosen from a field of 795 plays entered in the nationwide competition, "Ethel" was one of 23 that received honorable mention or special commendation. During the western regionals, held last month in Santa Barbara, Limar also received a Meritorious Achievement Award for her portrayal of Ethel Waters, the popular '20s and '30s blues singer and Broadway star.

Cal State students Nathalie Jeglin and Bill Adams also picked up Meritorious Achievement Awards for their work in "Lucy's Play." Jeglin received her honor in the property design category, and Adams was recognized in the area of musical composition.

"There's a lot of people that know now that Cal State, San Bernardino exists," said Limar. "Ethel" was a favorite during the western regional festival and organizers had to schedule it for four performances — twice as many performances as its five competitors.

The play's special commendation has given the university "national recognition," said Dr. Robert Yowell, theatre department chair. Limar, who graduates this June, may do a summer engagement of "Ethel" on campus before leaving for graduate school.
University librarian Dr. William Aguilar (left) joins President Anthony Evans in unveiling the library's 500,000th volume during a special ceremony held March 15. The addition is a map depicting the southwest portion of San Bernardino County. It was compiled from U.S. land surveys, railroad and irrigation surveys and various county records. The map was adopted by the San Bernardino County Board of Supervisors in 1891. The acquisition is on display on the first floor of the library.

The California State University, San Bernardino Friday Bulletin is published twice monthly. The next issue is scheduled for Friday April 6. Items for publication should be submitted in writing by noon, Friday, March 30 to:

Terrie Jo Snyder, editor
Public affairs Office (AD 104) Ext. 5007 Vol. 24, No.6
COMMUNITY SERVICE

Dr. Nicole Boumlas-Var-dicosis (Biology) appeared on KCET-TV’s “Take Five Series” on March 6. She discussed “Alternatives to Animal Testing.”

Dr. Reginald Price (Physical Education) presented “Fat Ain’t Funny” to members of the Uptown Lions Club on March 6.

Cynthia Pringle (Public Affairs) spoke to an eighth grade telecommunications class at Martin Luther King School about careers in the communication field on March 7.

Dr. Judith M. Rymer (University Relations) served as the keynote speaker for the City of San Bernardino’s “Women’s History Month” celebration on March 8. She spoke on “Courageous Voices Echoing Through Our Lives.”

James H. Rupp (American Culture and Language Program) served as a co-presenter at the annual international meeting of TESOL (Teachers of English to Speakers of Other Languages) on March 10. His presentation was entitled “Keep Raising Their Voices in Dialogue.”

Dr. Robert Senour (Audio Visual) spoke to two eighth grade classes on March 12 at Martin Luther King School on the topic of “Telecommunications: Today and Tomorrow.” On March 15, he taught two San Bernardino High School classes here on campus with the assistance of Tom Richards (Audio Visual). The presentation was entitled “Telecommunications Education Needed and Where the Jobs Are.”

Dr. David O. Stine (Education) discussed the “California State Quality Indicators of Education and their Relationship to Authentic Assessment” to educators in Los Angeles County on March 12.

Dr. Irvin Howard (Education) was the recipient of the California League of Middle School’s “Outstanding Middle Level Educators Award” on March 17 in Los Angeles. He is the first representative of higher education to receive this award in California.

Dr. G. Eric McAllister (Information & Decision Sciences) addressed the Los Angeles Telecommuting Advisory Council on March 20. His presentation was entitled “Computer-Based TELEDUCTION and Distance Learning.”

Current job vacancies can be seen on Channel 3, the community access channel in San Bernardino. Information also is available on a 24-hour hotline at Ext. 5139, which is updated at 3 p.m., Fridays. Applications will be accepted until 2 p.m. on the dates listed below:

**Accounting:**
Accounting Technician II-$2001-$2369/mo.; full-time, permanent.
Apply by March 23.

**Bookstore:**
Apply by March 23.
(not a state position)

**Campuswide Clerical Positions:**
(Current and future openings)

Clerical Assistant IIA-$1607-$1897/mo.;
Clerical Assistant IIB-$1611-$1900/mo.; full-time, permanent and full-time and part-time, temporary.
Open through June 30.

**Foundation:**
Payroll/Bookkeeping Technician-$839-$992.50/mo.; part-time, temporary through June 30.
Apply by March 30.
(not a state position)

**Payroll:**
Payroll Technician I-$1686-$1993/mo.; full-time, permanent.
Open until filled.

**Physical Education:**
Athletic Equipment Attendant II-$10.74-$12.74/hr.; part-time, temporary through June 30.
Apply by March 23.

**Physical Plant:**
Environmental Health & Safety Officer-$2500-$3300/mo.; full-time, permanent.
(Administrator II/Management Personnel Plan).
Open until filled.

**Services to Students with Disabilities:**
Interpreter/Transliterator I-$6.47-$14.90/hr.;
Interpreter/Transliterator II-$15.50-$19.71/hr.; on-call through June 30.
Open until filled.

**Public Safety:**
Public Safety Officer-$2585-$3112/mo.; full-time, permanent.
Two positions available.
Open until filled.
(Applications will be reviewed on March 30).

**Children’s Center:**
Assistant Teacher-$3.85-$6.83/hr.; part-time, temporary through June 15.
Open until filled.
(not a state position)

Head Teacher-$8.10-$9.57/hr.; part-time, temporary through June 15.
Open until filled.
(not a state position)

Substitute Teachers-$8.10-$9.57/hr.; on-call through June 15.
Open until filled.
(not a state position)

**Extended Education:**
Clerical Assistant IIIA-$1801-$2132/mo.; full-time, temporary through June 30.
Open until filled.

**Campuswide Clerical Positions:**
Interpreter/Transliterator II-$15.50-$19.71/hr.; on-call through June 30.
Open until filled.
Friday, March 23

Women's Tennis.
California Lutheran University.
1 p.m.

Women's Softball.
Pacific (OR) University; double-header.
2 & 4 p.m.

Basketball Showdown.
Delta Sigma Phi vs. Sigma Chi.
7:30 p.m., University Gym.
$1 per person; proceeds to benefit CSUSB Athletic Scholarship Fund.

Saturday, March 24

Men's Baseball
University of Wisconsin-Whitewater.
4 p.m.

Sunday, March 25

Men's Baseball
Plymouth (NH) University Noon.

Women's Softball.
Augsburg (MN); double-header.

Monday, March 26

Men's Baseball
Macalester (MN) College 3 p.m.

Tuesday, March 27

Men's Baseball.
Spring Classic.
University of Wisconsin-Whitewater.
7 p.m.

Wednesday, March 28

Men's Baseball.
Spring Classic.
Plymouth State College.
2:30 p.m.

Thursday, March 29

Women's Softball.
Augsburg (MN); double-header.

Monday, March 30

Men's Baseball.
Spring Classic.
Macalester College.
2:30 p.m.

Wednesday, April 4

Poetry Reading.
Gary Soto, contemporary author of Hispanic poetry & prose.
6 p.m., Sycamore Room, Lower Commons.
Free.

Thursday, April 5

Renaissance Banquet.
"18th Century Renaissance."
Music and dinner presented by CSUSB Concert Choir.
7 p.m., Upper Commons.
$25 per person, reservations required.
Call Ext. 5859.
The banquet is also scheduled for Friday, April 6; Saturday, April 7; Thursday, April 12; Friday, April 13; and Saturday, April 14.

Friday, April 6

Men's Tennis.
California Baptist College.
2 p.m.

Note: Men's baseball games are held at Fiscalini Field, 1007 E. Highland Avenue, San Bernardino.

Commons Schedule

Please note that the University Commons will be closed Saturday, March 24, through Wednesday, March 28.
