Journalist to Speak at Commencement

Arnold Garson, editor of the San Bernardino County Sun newspaper, will serve as the keynote speaker at Cal State's 24th Commencement ceremony slated for 5:30 p.m., Saturday, June 16. His remarks will focus on ethical and moral concerns in today's business world.

Prior to joining the Sun in November, 1988, Garson was managing editor of The Des Moines Register in Des Moines, IA. During the five years Garson held this position, the Register won two Pulitzer Prizes. Garson also served The Register as an investigative reporter for eight years. He is the recipient of the John Hancock Award for business and financial reporting, the American Political Science Association Public Affairs Reporting Award, the Iowa Associated Press Managing Editors' Sweepstakes Award and the University of Nebraska-Omaha Annual Journalism Award.

Garson hails from Lincoln, NB. He received a bachelor of arts degree in journalism from the University of Nebraska-Lincoln in 1964. He holds a master of arts degree in journalism from the University of California at Los Angeles which he received in 1965.

He began his career as a reporter for the Omaha World-Herald in 1965, moving to The Des Moines Tribune, sister paper of The Register, in 1969. Garson served as city editor of The Tribune for three years in the early '70s before joining the reporting staff of The Register.

Several dignitaries will join Garson as members of the platform party. They include: Caesar Naples, CSU vice chancellor for faculty and staff relations; Paul Woodruff, state assemblyman; Marian Bagdasarian and Scott Vick, members of the CSU Board of Trustees; James Penman, city attorney (continued on page 3)

New Vehicular Traffic Policy Promotes Pedestrian Safety

In an effort to maintain pedestrian safety on campus, a new university policy limiting vehicular traffic from most campus walkways has been implemented this week reports David DeMauro, director of the Physical Plant. The plan, approved June 4 by the Administrative Council, is a result of the campus' rapid growth and dramatic increase of both vehicular and pedestrian traffic on major campus walkways.

Effective immediately, the policy restricts vehicle traffic within the academic core of the campus. Vehicles are restricted to three main access points leading to the academic core of campus. These access points include the roadway between the Bookstore and Faculty Office Complex, the roadway between the Perimeter Road and the loading dock area of the Physical Sciences Building and the roadway from the Perimeter Road near the Commons to the loading dock area of the Pfau Library. Vehicular traffic also will be restricted on the Perimeter Road between the Bookstore and the Commons.

Authorized access to the academic core and three main access roadways will be limited to the following:

1. University vehicles being used to conduct university business.

2. University employee vehicles with authorized parking permits utilizing the Biology parking lot or new "20 Minute Parking" spaces within the academic core.

3. Other vehicles with a special permit obtained from the Public Safety Office.

4. Students with valid handicap authorization utilizing the handicap parking spaces located in the Biology parking lot.

Due to heavy pedestrian traffic on the Perimeter Road between the Bookstore and the Commons, only State vehicles being used for authorized university business will be allowed access to this area.

A number of "20 Minute Parking" spaces have been completed (continued on page 6)
Outstanding Students Named

In recognition of academic excellence and service to the campus, university officials have selected this year’s outstanding undergraduate and graduate. Both will be recognized during Commencement.

Twenty-one-year-old international student Paul Soo Dee Naik of Redlands, CA, has been named Cal State’s outstanding undergraduate. He will receive a bachelor of arts degree in biology and chemistry, graduating this June with an overall G.P.A. of 3.98. Naik, who hails from Malaysia, completed both degrees in just three years. He will continue to pursue his education this fall when he enters the University of California, San Francisco, to begin work on a Ph.D. in biochemistry.

During his tenure at Cal State, Naik has served as a member of the Chinese Student Association, was treasurer of Lambda Sigma (Biology Club) during the 1988-89 academic year and represented the university in the statewide CSU Student Research Competition. A member of the Dean’s List since his freshman year, Naik was inducted into the honor society of Phi Kappa Phi. He recently received a national Phi Kappa Phi fellowship being selected out of the nation’s top 50 undergraduates and bringing recognition to our campus as the first Cal State student to receive this award. Naik also is a member of the Inland Empire Presbyterian Church where he is active in a Chinese fellowship youth group.

Paul Soo Dee Naik, outstanding undergraduate

"I feel proud that as a foreign student I have received this award, because I believe this country tends to look at your merits rather than your nationality," says Naik.

Relaying a sense of humility, Naik continues, "I was shocked. I thought I had a chance, but it did not register in my mind that I had actually won it. It’s a big honor. I didn’t think I was worthy of this. As a double major, I didn’t have a lot of time to spend on extracurricular activities."

Naik believes that the academic environment at Cal State is very challenging. "I’ve had to work for my A’s. I have not breezed through all my classes. There are other students here who are very good, and they are constantly competing with me. They keep me on my toes."

He is grateful for the education he received at Cal State. "There are a lot of opportunities here. For example, I had the chance to do research here. I learned a tremendous amount from the work I did with Dr. Fehn (Biology). I learned important research techniques, and he showed me that research can be a challenging and fun experience."

Naik’s career goals include biomedical research and teaching. "I choose biochemistry because a lot of research done today is not done for the benefit of people, but for the self-gratification of the scientist," he notes. "I want to benefit the world, which may sound idealistic, but this is what I wish to do. Scientists must realize that they have an important job, an obligation to society, not to themselves."

In addition to his excellence as an academic, Naik also is a talented musician holding prestigious awards from London’s Trinity College of Music and Royal Schools of Music.

When questioned about his many accomplishments, Naik states, "My strongest motivation is my Christian belief. When I do something, I want to do my best. I think God has given me a gift to do well. I need to use this gift in the best possible manner. I believe I get my strength from God."

Re-entry student Ilona Marie Eubank is the recipient of the university’s outstanding graduate student distinction. She holds a bachelor of arts degree in English from Cal State and will receive a master’s degree in English composition this June with an overall G.P.A. of 3.91. A former resident of Blue Jay, CA, she recently moved to San Bernardino.

While pursuing an education, Eubank was active with the campus literary magazine, The Pacific Review; was nominated as the student representative of the Graduate Committee; served as a tutor in the Learning Center and was active with the Graduate English Association. She also served as a facilitator with the Inland Area Writing Project last summer. This spring she taught basic and freshman English courses at San Bernardino Valley College.

Commenting on being named outstanding graduate, Eubank says, "It was unexpected. It was a very big surprise. I was very pleased." Like Naik, Eubank praises the university’s academic environment. "It allows you the freedom to experiment, the opportunity to try new things. It’s an environment that is very supportive of the returning student."

Thirty-eight-year-old Eubank began her college career 20 years ago as an English major but switched to nursing and received an R.N. degree. When she decided to return to school to pursue an English degree, she said she initially chose Cal State because it was close to home, a fact that is important to a mother of two teenage sons. "I soon found out that Cal State had a lot more to offer than just being close to home," she says. "I would recommend Cal State to others, because I’ve gotten so much out of it. The faculty have been very supportive and (continued on next page)

Athletic Association Launches Fund Drive

History was in the making last night as Cal State’s first athletic scholarship drive was launched with a kick-off meeting at the Maruko Hotel. Sponsored by the CSUSB Athletic Association and coordinated in conjunction with the Athletic Department, organizers hope to raise $75,000 toward athletic scholarships to be awarded in January, 1991.

“The drive supports our move to the California Collegiate Athletic Association and NCAA Division II competition,” explains Cal State Athletic Director David Suenram. The university moves to Division II competition with the Fall, 1991 quarter.

“I’m very confident that we will raise enough money this year to reach our goal,” continues Suenram. “We believe that Cal State is ideally positioned to represent the growing strengths of the Inland Empire. And for the Athletic Department to truly represent the university, we must be able to recruit the top athletes in the Inland Empire. To do this, we must be able to offer scholarships. The potential is here to develop a strong athletic program.”

Funds raised from the drive will be applied to all Cal State intercollegiate sports. Donors, however, may designate their gift to a particular sport if they desire. Members of the campus community may assist the drive with a donation or by volunteering their services. Contact the Athletic Department at Ext. 5011 for more details.

Student Art Show Opens Tonight

The final exhibit of the 1989-90 University Art Gallery season, the 20th Student Art Show, opens tonight with a reception from 7-9 p.m. in the Visual Arts Building. In conjunction with the opening reception, the Art Department will host an open house showcasing student artwork throughout the Visual Arts Building. Live music and delicious food will add to the festivities.

An awards ceremony honoring Cal State art students also is planned. The San Bernardino Art Association Awards, the Thomas Award in Woodworking and the Antique and Fine Art Association Scholarship in Painting and Drawing will be presented.

The 20th Student Art Show will remain on display in the University Art Gallery through July 20. Gallery hours are 9 a.m.-noon and 1-4 p.m., Monday-Friday.
Campus Receives Energy Award

Southern California Edison Company recently presented Cal State with its 1990 Excellence in Energy Management Award at a major customer information meeting held May 23 at the Maruko Hotel. The university was one of only three recipients. "This award goes to customers who display outstanding efforts in energy management and conservation," says Jan Roosevelt, a major account executive with Edison. "This is Edison's way to make special recognition for our customer's efforts."

Physical Plant Director David DeMauro explains that the award is the result of a four-year project geared to increase illumination across the campus for safety purposes and to reduce the university's electric bill, which averages about $750,000 per year. The project involves the installation of high-pressure sodium light fixtures near major buildings such as Administration, Creative Arts, Biology, Physical Sciences, Student Services and Visual Arts.

The new fixtures provide improved lighting and use less electricity than former fixtures. During the first two years of the project, new fixtures were installed in campus parking lots and throughout the interior walkways. The next phase of the project, slated for completion this summer, will be to install these fixtures around the dorms.

A $4975 rebate check from Edison accompanied the award. DeMauro says that the money will be used toward ongoing energy projects, such as the installation of automatic light sensors for most campus classrooms. The sensors automatically turn off lights in a room if no motion is detected after about eight minutes. DeMauro expects this project to be completed by fall 1990.

According to Roosevelt, "Cal State will be awarded future rebates for energy efficient building designs related to the new buildings being planned."

Award-Winning Performances by CSUSB Golf & Baseball Teams

by Dave Beyer, sports information director

Both the golf and baseball teams at CSUSB recently brought some national recognition to the campus, thanks to their respective national placements.

The Coyote golfers finished fourth in the NCAA Championships held May 22-25 in Jekyll Island, GA. The team gave head coach Greg Price, who resigned at the conclusion of the 1990 season, his third national placement in the five years of the program's existence. Cal State was led by junior Brad Casdorph, who placed 10th overall and earned second team All-American honors. Chris Astorga, the only senior on the team, fired the low round of the entire tournament with a four under par 68 on the final day of the four-day competition.

Cal State's baseball team made the most of its first-ever post season play-off bid by sweeping the West Region Championship from Claremont College, three games to none, in a best-of-five series at Claremont. The Coyotes then advanced to the Division III World Series in Battle Creek, MI, where they placed fourth. Head coach Chuck Deagle's crew lost their opening game to eventual national champion Eastern Connecticut, 8-4, before shelling Montclair (NJ) State College, 17- 3. CSUSB was eliminated from the event by last year's champions, North Carolina Wesleyan, 10-6. Senior second baseman Ryan Love, who was named as a second team All-American this season, also was selected to the All-Tournament Squad.

Congratulations to both of these teams, as well as all of the other spring sports athletes who represented Cal State with pride.

Bookstore Notice

Please be advised that the campus Bookstore will be closed for inventory on Thursday, June 28, and on Friday, June 29.
Department Chair Resigns

Dr. Stella Clark

Dr. Stella Clark, chair of the Foreign Languages Department and professor of Spanish, has announced her resignation from Cal State at the end of the current quarter. She has accepted a faculty position at CSU, San Marcos where she will organize that university’s first Foreign Languages Program.

Clark joined our campus in 1971, served as associate dean of Academic Administration in 1972-73, and was an administrative assistant to the dean of the School of Humanities from 1975-1982. She also served as interim dean of the School of Humanities from 1984-1986. She has chaired the Department of Foreign Languages since 1988.

In discussing her resignation from Cal State, Clark comments that, "As a dean and a department chair, I think I’ve hired some outstanding faculty members. As an evaluator of faculty, I feel I have been a good mentor to many. As a teacher, obviously, I feel I have served as a role model for women, Hispanics and students. I’ve taken a lot of personal interest in my students."

Regarding the challenges of her new position, Clark notes that, "There is a growing concern for internationalizing the curricula within the CSU system. Conforming to that concern will be a big challenge." She adds that her first task at San Marcos will be to decide which languages are appropriate for that community and to take a look at the types of programs which are developing on that campus. She says that she will probably start with the development of a Spanish program and incorporate a program for Pacific-Rim languages.

According to Clark, a strong foreign language program is important to any university. "It (foreign languages) opens up one’s horizons and lets you participate in the way people who are different from you think and act."

"I felt I could use the expertise this campus has given me to help another place develop and grow," says Clark. "I also want to find opportunities that are not available to me on this campus."

(Traffic Policy . . . continued from page 1)

In an effort to implement this new policy, steel posts with sleeves are being installed to limit vehicular traffic on pedestrian walkways. They are designed to bar vehicles but allow easy access for pedestrians and individuals in wheelchairs. They will be equipped with locks so that they may be removed in the event of a campus emergency or major university operation.

DeMauro explains the significance of this new policy. "The primary purpose is to promote pedestrian safety. We have been working on this plan for over a year and have tried to develop a plan that would serve the needs of the campus community while at the same time promote pedestrian safety." Anyone having questions regarding the policy may contact DeMauro at Ext. 5166.
**PRIME Computer to Shut Down**

Due to a decision in the Chancellor’s Office not to renew the annual maintenance contract for computer support for all PRIME computer systems throughout the CSU system, our campus plans to remove the PRIME from our computer equipment inventory and migrate associated workloads to other computer systems. July 1 is the target date for this transition.

The PRIME system is used primarily to support statistical workloads (SPSS, SAS, MINITAB and ORACLE) and users are advised to transition to the Chancellor’s Office’s CYBER 960 for SPSS, their VAX8500 for SAS and MINITAB, and lastly, to CSUSB’s IBM 4381 for ORACLE. The Computer Center will provide appropriate documentation and primer training to faculty members in the “how-to’s” of remotely accessing SAS and MINITAB applications.

David Neighbors (Computer Center) is serving as transition coordinator for this project. Listings of all data files maintained on the PRIME have been distributed to faculty and students for status disposition. Any PRIME users who have not received this information may contact Neighbors for assistance in relocating their data files to other computer systems. He may be reached at Ext. 3087.

**Blood Drive a Success**

Cal State’s Student Health Advisory Committee and the Health Science Club extend their thanks to those members of the campus community who donated to the university blood drive held May 16. As a result, our blood reserve fund has been credited with an additional 54 units.

Appreciation also is extended to the many volunteers and vendors who donated services and prizes. Participating vendors included: Baker’s Burgers, Jerseys Pizza, Clark’s Nutritional Center, El Gato Gordo, Nautilus Plus and Marie Callender’s. T-shirts were donated by Recreational Sports.

Anyone interested in donating blood may visit the San Bernardino Blood Bank, 399 Blood Bank Road, San Bernardino, CA. If you desire, you may request that your donation be credited to the CSUSB Blood Reserve Fund. Many members of the campus community donate on a regular basis. Their ongoing contributions are greatly appreciated.

---

**Recreational Sports Announces Summer Hours**

A variety of physical education facilities are open to members of the campus community according to the following schedule:

In addition to the above schedule, a variety of drop-in programs have been designated according to the following schedule: Basketball, Mondays 6:30-9:30 p.m., June 18-July 23; Family Rec. Nite (Basketball, Volleyball, Badminton & Swimming) Tuesdays, 6:30-9:30 p.m., June 19-July 24; Volleyball, Thursdays, 6:30-9:30 p.m., June 21-July 26.

Beginning July 19, a series of free informational presentations on outdoor photography, backpacking, sailing, sailboarding and canoeing will be given on Thursday evenings at 7 p.m. in Room 129 of the Physical Education Building. Details will be forthcoming in future issues of The Friday Bulletin. For information on the summer schedule or upcoming presentations, contact the Recreational Sports Office at Ext. 5235 or Ext. 5350. Members of the campus community are reminded to bring their I.D. cards when planning to use recreational facilities.
COMMUNITY SERVICE

Dr. Raymond Torres-Santos (Music) served as a judge at the "Rudolph Polk Piano Competition" held April 6 at Scripps College in Claremont, CA.

Dr. Rodney Simard (English) addressed "American Indian Literature" on May 8 at the Leisure Point Retirement Facility.

Dr. David Sline (Education) presented "The Psychology of Time Management" to members of the Inland Empire Chapter of the Building Owners and Managers Association on May 10.

Vice President Peter A. Wilson (Student Services) presented a workshop on "Career Derailment Factors and Rerailment Strategies" at the Inland Area Personnel Management Association's 1990 Spring Symposium held May 11 in Palm Springs, CA.

Linda C. Rodgers (Rodgers Associates) assisted with the workshop, which explored critical factors that sidetrack careers and explored strategies to get careers back on track.

Dr. Lee Porter (Extended Education) presented "Old Dogs Can Learn New Tricks" at the May 15 meeting of the Banning Rotary Club.

Johnnie Ann Ralph (Library) addressed members of the Uptown Lions Club on May 15. She spoke on "San Bernardino City/County History."

Dr. Arlo D. Harris, professor emeritus (Chemistry), spoke to the Dayton Ohio Chapter of the World Future Society at the Engineers Club in Dayton, OH, on May 16. His topic was "Breakthroughs in Chemistry: From the Past Through the 1990s."

Clark Howard (S.A.I.L.) spoke on "Strategies for Student Success: The S.A.I.L. Program" at the May 16 meeting of the Lake Arrowhead Chamber of Commerce.

Dr. Thomas Melsenhelder (Sociology) presented "The U.S. and Crisis in Central America" at the May 17 meeting of the Colton Lions Club.

Dr. Brij Khare (Political Science) discussed "Cultural Diversity in the Work Force" with employees of the U.S. Forest Service on May 22 as part of their celebration of "Asian Pacific Islanders Month."

Dr. Derk Bruins (National Security Studies) spoke to members of the Orange Empire Retired Officers Club on May 25. His address was entitled "Whatever Happened to the Evil Empire?"

David Beyer (Athletics) addressed a joint meeting of Southern California community college athletic directors on May 31 at Temecula Creek, CA. His topic was "Promotion and Marketing of Community College Athletics."

Dr. Kenneth Thygerson (Accounting & Finance) presented "Thrift Crisis: Causes and Solutions" at the June 5 meeting of the Kiwanis Club of East San Bernardino.

Dr. Lanny Fields (History) spoke on "Modern U.S.S.R." at the June 6 meeting of the Grand Terrace Lions Club. He addressed this same topic with members of the Colton Lions Club at their June 7 meeting.

Terrie Jo Snyder (Public Affairs) is serving on the Public Relations Committee for Arrowhead United Way, a non-profit organization which raises funds in support of over 50 local health and human-care service agencies in the greater San Bernardino area.

Birth Announcements
Sincere congratulations are extended to three members of the campus community on the births of new family members.

Joan Graham (Social & Behavioral Sciences) is the proud grandmother of her first grandchild. Chelsea Arianne Graham was born May 15 in Quesnel, B.C., Canada. She weighed 6 lbs., 15 oz.

Randy Harrell (Student Life) and wife Jolynn Wadsworth-Harrell are the proud parents of a new baby boy. Jordan Wesley Wadsworth-Harrell was born on May 16 weighing 8 lbs., 2 oz. He was 20" long.

Alice Martinez (Financial Aid) and husband Andrew also are proud parents of a son. Andrew W. Martinez, Jr., arrived in the world on May 23. He weighed 7 lbs., 6 oz.

Best wishes to all!

EMPLOYMENT OPPORTUNITIES

Current job vacancies can be seen on Channel 3, the community access channel in San Bernardino. Information also is available on a 24-hour hotline at Ext. 5139 which is updated at 3 p.m. Fridays. Applications will be accepted until the dates listed below:

Academic Scheduling:
Clerical Assistant IIA-$1801-$2132/mo.; full-time, permanent.
Open until filled.

Accounting:
Intermediate Account Clerks-$9.07-$10.70/hr.; full-time and part-time, temporary, on-call.
Apply by June 15.

Biology:
Instructional Support Technician I-$2310-$2776/mo.; full-time, permanent.
Apply by June 11.

Campuswide Clerical Positions:
(Current and future openings)
Clerical Assistant IIA-$1607-$1897/mo.;
Clerical Assistant IIB-$1611-$1900/mo.; full-time, permanent and full-time and part-time, temporary.
Open through June 30.

Children's Center:
Assistant Teacher-$5.85-$6.83/hr.; part-time, temporary through June 15.
Open until filled
(not a state position)

Substitute Teachers-$8.10-$9.57/hr.; on-call through June 15.
Open until filled.
(not a state position)

Financial Aid:
Student Services Professional IB-$2199-$2635/mo.; full-time, permanent.
Open until filled.

Foundation:
Food Services Director-Salary commensurate with experience;
full-time, permanent.
Position begins July 1.
(not a state position)

Physical Plant:
Building Services Engineer-$2720-$3125/mo.; full-time, temporary for up to one year.
(Two positions available)
Open until filled.

Services to Students With Disabilities:
Interpreter/Transliterater I-$6.47-$14.90/hr.;
Interpreter/Transliterater II-$15.50-$19.71/hr.; on-call through June 30.
Open until filled.

Recent Conference Explored California's Growth

According to a recent release issued by the Office of Extended Education, over 300 individuals recently attended a conference focusing on state and regional growth held May 31 and June 1 in Ontario. Jointly sponsored by CSUSB and Cal Poly, Pomona, the conference was entitled "Facing Up to Growth in California and the Inland Empire: Shaping Solutions for the 1990s."

Day one of the event focused on state growth with sessions on top-down (management through State and regional policy) and bottom-up (growth management through local cooperation) approaches and responses by members of the planning profession and local politicians. A luncheon presentation included a look at the governor's role in growth management.

The second day of the conference centered on growth in the Inland Empire with sessions on local solutions, city incorporation and annexations and legislative solutions to growth management in California.

Conference participants included elected officials, planning commissioners, city managers, developers, public administrators, faculty and students.

Expenses of the conference were offset by sponsorship from a variety of organizations, including: the California State Lottery, The Conservation Foundation, California Environmental Trust, Keep Riverside Ahead, Building Industry Association, City of Rancho Cucamonga, Caltrans, Tri-Valley Homes, County of San Bernardino, County of Riverside and San Bernardino Associated Governments. Other sponsoring organizations included: Inland Empire Economic Council, Porter Real Estate, Inc., City of Riverside, SCAG, Cal State's Institute of Applied Research & Policy Analysis, Southern California Edison, Sierra Club, City of Ontario and the Inland Empire Management Center.

Dr. Guenther Kress (Public Administration) co-chaired the conference and was responsible for its content. This was the third annual conference dealing with state growth.
A special groundbreaking ceremony for the new classroom/student services/faculty office complex held May 21 marks the beginning of a construction boom for Cal State. On hand for the special event were (from left): Dean Beverly Hendricks (Humanities), Vice President Peter Wilson (Student Services), Dean Sidney Ribeau (Undergraduate Studies), Vice President Leonard Farwell (Administration & Finance) and CSU Trustee Ralph R. Pesqueira. Actual construction was slated to begin yesterday.

Professor Receives Distinguished Award

Dr. Jorun B. Johns (Foreign Languages) is the recipient of one of the highest distinctions awarded by the Republic of Austria. On May 5, Johns was presented the Austrian Medal of Honor for Arts and Sciences by Austrian Consul General, Dr. Franz Cede.

Johns has worked to mediate Austrian literature to the U.S. in a variety of ways. She has published works on Austrian writers, edited correspondences and compiled bibliographies on Austrian writers, especially women. Johns serves as secretary-treasurer and board member for a prominent journal dealing with Austrian literature and is an editor of a monograph series on Austrian literature, culture and thought.

Additionally, Johns has organized numerous sections at national and international professional meetings aimed at making the English-speaking world more aware of Austria as an autonomous nation which, although sharing the German language, possesses a distinct and separate literature and culture. She is among the original faculty members here at Cal State.

Campus Included in Malathion Spray Zone

The university has been notified by the California Department of Food & Agriculture that our campus will be included in upcoming malathion sprayings scheduled for Tuesday evenings throughout the month of June. Spraying will begin at approximately 9-10 p.m.

Individuals seeking more information may contact the Department of Food & Agriculture at (800) 225-1346 during daily business hours; during the evening or on weekends, call the department at (800) 542-6668. This second number is a daily updated recording announcing specific spray dates and locations.
