ATHLETIC DIRECTOR CANDIDATES NAMED

Three women and two men are being invited to interview between mid-January and early February for the athletic director position, reports Judith Rymer, vice president (University Relations).

The women include Nancy Simpson, who has been serving as the associate athletic director at Cal State since July. Previously, Simpson was Cal State's assistant athletic director and senior women's administrator for three years.

She also was senior associate athletic director at the University of California, Riverside. She holds a master's degree from the University of Southern Missis sippi.

Betsy Werner of Highlands Ranch, Colo., has 13 years of experience as a women's athletic director and an associate athletic director, most recently at Drake University, which is a Division I school. She also spent five years managing private athletic clubs in Dallas, Texas. She holds a master's degree from the University of Mississippi.

Joanne Fortunato of Marlborough, N.H., is the former athletic director at Keene State College, where she spent 12 years overseeing the program that will move soon from Division II to Division III. She holds two Ph.D.s from the University of Southern California and Northwestern University.

The men include Turlock, Calif., resident Joseph Donahue, who, for the past five years, has served as the athletic director for Cal State, Stanislaus. He holds an M.B.A. from Monmouth College in New Jersey, where he was a coach and athletic administrator from 1982-89.

Wayne Edwards of Dracut, Mass., is the athletic director of the University of Massachusetts, Lowell. He has overseen the Division I and II programs since 1987. In 1993, his responsibilities expanded to include the position of associate vice chancellor for university relations, which involves the oversight of the alumni affairs program. He holds an Ed.D. from Peabody College of Vanderbilt University.

The athletic director search is being conducted by a committee of university faculty, staff, administrators, CSUSB alumni and community representatives. Rymer chairs the committee. The opening has been created by the retirement of David Suennam, athletic director for CSUSB for the past five years.

The campus community is invited to attend any of the open forums for the five candidates. They are: Simpson on Jan. 13; Donahue on Jan. 17; Edwards on Jan. 31; Fornoff on Feb. 2; and Werner on Feb. 3. All forums run from 11:15 a.m.-noon in JBH 276.

ATHLETIC DEVELOPMENT DIRECTOR HIRED

Two glass windows and a door were broken in the library sometime between early Christmas morning and Dec. 27, reports Steve Nowicki, acting director (Public Safety).

"A few things were moved around. It does not appear the perpetrator was interested in the building," said Nowicki.

Several sections of the new wing and Plau Library appear to have been rifled. Because there were no signs of forced entry, campus police can't determine how vandals entered the building, Nowicki says.

Klaus Brasch, acting dean of the School of Natural Sciences, was an invited speaker at a conference on Mathematics, Science and Engineering (MSE), sponsored by the National Science Foundation and co-hosted by the University of California Irvine and the Quality Education for Minorities (QEM) Network. The two-day event convened educators, scientists, administrators, students, parents, business people and NSF officials to help identify strategies for increasing the production of minority MSE graduates within California to levels commensurate with the state's minority K-12 population.

Dr. Brasch's presentation at the conference, "A Model System for The Science Education of Diverse Populations," was based on the NSF-funded project by the same title, which he co-directs with two colleagues from the School of Education, Iris Riggs and Esteban Diaz. This three-year program targets elementary (grades 3-6) science teachers and bilingual aides in the Fontana Unified School District. The project couples intensive hands-on training in the basic sciences with cooperative learning methods. CSUSB scientists and educators have all been closely involved with this project. Lead teacher Kathy Mouzakis and strong district administrative support have also contributed to the program's success.

Several major conclusions were reached at the MSE conference. One was that integrative, hands-on teaching programs like this are key to first raising an interest in and appreciation for science, mathematics and technology among all students but especially during their formative elementary school years. Second, this approach fosters attitudes of cooperative problem solving and helps overcome the notion among students that science is boring or too difficult for them to understand. Third, it opens students' eyes to intellectual pursuits and career options they might otherwise consider. The last factor was deemed particularly important with respect to minority and traditionally underrepresented students.

A faculty development program sponsored by Graduate Studies and the Faculty Professional Development Committee
Vol. 8, No. 3 — January 1995

Frances Berdan (Anthropology) and Patricia Rieff Anawalt (UCLA). "Mexican Textiles." Research and Exploration 10, no. 3 (Summer 1994): 342-353.

Congratulations are due to the CSUSB faculty who were selected to present at the third annual Symposium on University Teaching. Selected by a juried process were John Dorocak and Claire Purvis (Accounting & Finance), Sam Crowsell and Lynn Diaz-Rico (Education), Greg Gilbert, Susan Meisenhelder and Kelly Rayburn (English), and Walt Oliver (Foreign Languages). The free, day-long program provides the opportunity for CSU faculty from southern California to share successful teaching techniques relating to a wide variety of topics including teaching in a large-lecture format, use of new technology, collaboration, active learning, teaching portfolios and improving student writing. This year's symposium is scheduled for Saturday, February 11, 1995 from 8:30 a.m.-4:00 p.m. at CSU, Fullerton.

The program schedule will be mailed to faculty later this month. The Office of Research and Graduate Studies is funding this valuable faculty professional development opportunity.

A REMINDER!

INSTITUTIONAL REVIEW BOARD

Federal law and CSUSB policy require that all projects involving human subjects must be reviewed by the campus Institutional Review Board (IRB) before initiation. This applies to both faculty and student research. Guidelines, advice and review forms are available from any board member or Research and Sponsored Programs.

SPANISH PLAYS STAGED

Three Spanish plays written by major dramatists will be staged at CSUSB, Jan. 26, 27 and Feb. 2 and 3.

"El Censo" ("The Census") by Mexican playwright Emilio Carbajal and "Una mariposa blanca" ("A White Butterfly") by Chilean playwright Gabriela Roepke will run Jan. 26 from 2-4 p.m. and again Feb. 2 from 11 a.m. noon.

On the following Fridays, Jan. 27 and Feb. 3 at 8 p.m., "En la ardiente oscuridad" ("In the Burning Darkness") by Antonio Buero Vallejo, a Spanish dramatist, will be staged.

The Fourth Annual Theatrical Presentation is sponsored by Cal State's Department of Foreign Languages and Literatures. All shows will be held in the Creative Arts Building Recital Hall. Cost is $2 per person. For more information, call the Foreign Languages Office at Ext. 5847.

COMMUNITY SERVICE

On Oct. 27 Dr. Pete Robertshaw (Anthropology) spoke about archeology in Africa and the United States to a class of sixth-grade students at Mary Tone Elementary School in Crestline.

Dr. Mary Smith (Marketing) has been elected as vice president of the San Bernardino East Rotary International Club.
